LOCATION

Baramati, Maharashtra

SKILLS

Technical Skills

Test Automation | Selenium WebDriver | TestNG | Postman API | SQL | Java | Jira | GitHub | Object-Oriented Programming (OOP) | Page object model | MySQL | Agile Software Development | Data Driven Framework | Test Cases | SDLC | Mobile App Testing

PROJECTS

Investment Banking

Jun 2021 - Present

Domain : Banking and Finance
Client : Bank of Queensland Limited, Australia

Care Cloud Software

Sep 2020 - Jun 2021

Domain : HealthCare
Client : CareCloud, USA

EDUCATION

Bachelor of Engineering : Mechanical Engineering

SVPM COE Malegaon BK

CGPA: 7.9

Aug 2016 - Jun 2019

PERSONAL DETAILS

Date of Birth: 11/07/1998

Nationality: Indian

Gender: Male

Marital Status: Unmarried

Languages Known: English, Hindi, Marathi

Address: A/P Malegaon BK, Tal= Baramati, Dist= Pune

SUMMARY

A Professional having 3+ Years of experience in Software testing industry in Manual and Automation Testing using Functional, Non Functional, Regression, API Testing, Database Testing & Automation Testing (Selenium WebDriver with JAVA).

WORK EXPERIENCE

Software Quality Assurance Engineer

Sep 2020 - Present

Expleo Solutions , Mumbai

- Formulated the Page Object Model (**POM**) and **Test Cases**, thereby significantly enhancing the precision of the framework.
- Leveraged **TestNG** extensively for developing efficient test classes.
- Applied **assertions** and **annotations** in TestNG, boosting testing accuracy.
- Executed test scripts for **IE, Firefox, and Chrome browsers**, ensuring comprehensive testing.
- Developed and automated test cases in accordance with project requirements, strategically optimizing testing processes to enhance efficiency and precision throughout the **SDLC**.
- Performed, **debugged**, and precisely resolved automation issues.
- Analyzed business needs, documented process flows, automated scripts.
- Conducted peer reviews, performed QA for teammates' scripts, ensuring project standards.
- Implemented **Data-Driven** and **Hybrid frameworks**, showcasing a strong understanding, test automation using **Selenium WebDriver** version 3.141.59.
- Identified Web Elements using **X-path**, managed **List-Box**, executed **Mouse actions**, handled **Pop-ups**, **iframes**, and managed **Dropdown**.
- Implemented **Implicit** and **Explicit Waits** in Selenium WebDriver for reliable automation.
- Utilized **Maven** to enhance Data-Driven Frameworks and managing **GitHub repositories**.
- Demonstrated **JAVA** proficiency with a solid grasp of **OOPS** concepts.
- Applied **Agile Methodology** processes in the project.
- Created a detailed **Traceability Matrix** by aligning Business Requirements with test cases, ensuring a systematic link between project objectives.
- Conducted **API testing** with precision and efficiency by effectively utilizing the powerful features of the **Postman tool**.
- Skillfully executes the Test Execution Process, adeptly manages the **Defect Life Cycle**, and categorizes bugs based on **severity** and **priority**.
- Executed functional testing, system integration testing, ad-hoc testing, Sanity testing, regression testing and performing Retesting of defects.
- Utilized **test case design techniques** to construct and document comprehensive test cases for enhancing the overall testing process.
- Implemented QA processes, managed software lifecycles, and provided accurate test estimations.
- Gathered client requirements, facilitated team reviews, **raised defects** in **JIRA** for issue tracking and effective defect management.
- Utilized **Oracle DB** for executing database testing in a dynamic work environment with 3 years of experience.

DECLARATION

I hereby declare that all the information given above is true and correct to the best of my knowledge.
