WORK EXPERIENCE

Data Engineer IBM

12/2020 - 02/2023

Key Achievements- IBM Rockstar Award , Performance Award.

- Experience in using Ab initio components , building code , execution and monitoring of jobs and schedules.
- Experience in using Hive and Hadoop commands.

Officer Citicorp

05/2023 - Present

Tasks

- Ab initio for ETL , building graph for onboarding of new feeds.
- Creating autosys jobs for scheduling , Unix shell scripting.
- Oracle DB for loading data and using SQL for analysis.
- Analyzing and recovering production failures.
- Experience in Git,bitbucket,jenkins.

Software Engineer CGI

03/2023 - 05/2023

ACADEMIC BACKGROUND

BE in Electronics and Communication Chandigarh University

08/2016 - 06/2020

Percentage - 80.9%

E-yantra Project-Planter bot (IIT Bombay)

- The project was based on image processing techniques of object detection, shape, color detection through OpenCV Python on Raspberry-pi Module.
- The idea was to build a robot which will traverse the field with good accuracy in path detection with the aid of vision

12th Standard (CBSE)

MVM Public School , Jammu(J&K)

05/2014 - 04/2015

Percentage - 82.6%

10th Boards (ICSE)

Carmel Convent School , Nahan(H.P)

05/2012 - 04/2013

Percentage -72%

SKILLS

SQL

Unix

ETL

Hive

Hadoop

Python

DBMS

Microsoft Azure

Ab initio

TWS

Git

CERTIFICATIONS

Microsoft Certified : Azure Fundamentals.
(AZ-900) 

IBM certification in "DBMS" 

IBM certification in "Abinitio" 

Udemy certification in "SQL" 

PROJECTS

Financial Data Services

- Worked on multiple areas like e-layer onboarding of new files, generating history acquisition pset, CS area as well.
- Implemented tables which is transactional in nature and tested the same till hadoop.
- Graph testing and manipulation to achieve required results.

Troubleshooting Data Failures

- Monitoring of Data jobs and Schedules.
- Optimising data migration process by continuously resolving error encountered and applying fixes.
- Good understanding of recovering Abinitio failures.
