About Me

Dedicated and empathetic psychologist with a passion for promoting mental well-being in both children and adults. Armed with a profound understanding of counseling and therapy techniques, I am driven by a genuine desire to foster positive change and resilience in individuals facing diverse challenges. My unwavering commitment to ongoing professional development ensures that I stay abreast of the latest research and therapeutic modalities, enabling me to provide tailored and effective support to clients of all ages.

Professional Experience

Bengaluru Neuro centre

2022 - 2023

Key responsibilities: Intern psychologist

- Collaborated with Bangalore Neuro Centre as an intern, specializing in neurodivergent children, including those with autism and ADHD.
- Conducted individual counseling sessions, implementing Cognitive Behavioral Therapy (CBT) and other evidence-based techniques to address diverse neurodevelopmental challenges.
- Assisted in the development and execution of tailored therapeutic interventions, fostering positive outcomes for children and enhancing their overall well-being.

Aster clinic

2022

- Key responsibilities: Researcher
- Engaged in cutting-edge research initiatives at Aster Clinic, contributing to advancements in the understanding and treatment of specific medical conditions.
- Played a pivotal role in data collection and analysis, supporting evidence-based practices and contributing valuable insights to the broader medical community

Personal Projects

- Training intervention for G.K enterprises
Organizational developmental research
- Scale development - developed a scale to assess the job readiness among graduates.
- Research on "Influence of personality traits on individual work performance".
