- Good experience in Agile-Scrum Methodology.
- Experience in functional testing, Integration Testing, Regression Testing, and Black Box Testing.
- Possess excellent skills in designing and executing test scripts.

- Good understanding of Software development Life cycle (SDLC)
- Good knowledge of Software Testing life cycle (STLC)

PROJECT

PROJECT 1:

Project Title : Southside Bank
Automation Tools : Selenium WebDriver

Description:

Southside Bancshares, Inc., the holding company for Southside Bank, is headquartered in Tyler, Texas. Southside Bank operates banking facilities in East, North, Central and Southeast Texas. These services include consumer and commercial loans, mortgages, treasury management, credit cards, ATMs, trust and wealth management, brokerage services, and online and mobile services. We are one of the offsite teams who supported and developed their web application. Our team is mainly involved in developing automated QA scripts in selenium and Cucumber.

Roles & Responsibilities:

- Involved in Automation framework implementing **Page Objects, Data-Driven, Maven** using **Selenium Web Driver** using **Core Java**.
- Prepared reusable methods to improve productivity and maintainability.
- Prepared Feature files and Step definition in **Cucumber**.
- Prepared **POJO** Classes to reduce memory wastage.
- Involved in Bug fixing for the defects raised during **UAT**.
- Good Experience in Resolving conflicts and being Involved in **Pushing, Pulling, Merge** the source code from **GIT**.
- Perform **Cross browser** testing and **parallel execution** to check the compatibility and stability of the application.
- Extensively automated **Regression test** using **Jenkins**.
- Good in Java language programming and finding **X-path** locators.

PROJECT 2:

Project Title : Shop Rite (E-Commerce)
Automation Tools : Selenium WebDriver , TestNG, Core Java, Jenkins, JIRA

Description:

Shop Rite operates brick-and-mortar grocery stores at multiple locations across the US. It is a very popular website for buying foodstuff at discount rates. Shop Rite's website also features discount coupons and codes that help save money.

Roles & Responsibilities:

- Understood business requirements.
- Involved in the analysis, design, and construction phases of the project.
- Prepared and executed Test Cases and captured Test Results and reported bugs to the developer.
- Performed System Testing, Smoke Testing, and Functional and Regression testing.
- Assigned the tasks of preparing test scripts and performing Black-box testing.
- Prepared Feature files and Step definitions.
- Prepared daily status reports as per the planned and actual progress of deliverables.
- Provided Knowledge Transfer to new members of the project team.
- Responsible for identifying Regression test cases and converting test cases to test scripts using Selenium Web Driver.
- Actively involved in writing and maintenance of test scripts and running test cases on various browsers under **Data driven** framework using **Page Object model**, **TestNG**, and **Apache POI**.
- Extensively automated Regression test using Jenkins
- Usages of **Maven** for the project's build management tool.
- Utilize ID, X Path, and other locators to locate elements on Web pages for the Application under test.
- Generation of Data for every test execution (Auto) and Developing methods for repeating steps.
- Test execution, Report analysis, and logging appropriate bug

ACADEMIC DETAIL

Qualification	Board/University	Year of passing	Percentage (%)
BE(ECE)	Prince Shri Venkateshwara Padmavathy Engineering College, Anna University	2020	67%

PERSONAL DETAIL
