

KUMUDA CHANDRA BEHERA
Cloud & Devops Engineer

Email:kumudachandra1992@gmail.com

Mobile :+919777949109

Linkedin:<https://www.linkedin.com/in/kumuda-chandra>

Professional Summary

- Having 5.5 years of overall professional experience in IT industry and 4+ years experience in Cloud and Devops Tools , Build and Release, DevOps and AWS Cloud Services that includes principles with keeping up Continuous Integration, Continuous Delivery and Continuous Deployment.
- Experienced in designing, deploying and maintaining various multitude applications for data migration utilizing almost all AWS services stack including Elastic Cloud Compute EC2, RDS, EFS, Subnets, Security Groups, NACLs, Cloud Front, RDS, Key Management Service, Elastic Container Service (ECS), SNS, Focusing on High Availability, Fault-Tolerance.
- Develop automation and processes to enable teams to deploy, manage, configure, scale, monitor applications in Data Centers and in AWS Cloud.
- Good Knowledge of IaaS/PaaS/SaaS experience in AWS Cloud with databases like DynamoDB, S3 Buckets, MySQL and Elastic Cache.
- Hands on experience in S3 buckets and managed policies for S3 buckets and utilized S3 Buckets and Glacier for storage, backup and archived in AWS and in setting up and maintenance of Auto-Scaling AWS stacks.
- Configuring and networking of Virtual Private Cloud (VPC) .
- Experienced in Branching, Merging, Tagging and maintaining the version across the environments using SCM tools like GIT, GIT HUB.
- Worked on Jenkins for continuous integration and for End to End automation for all build and deployments.
- Experience in writing Ansible Playbooks to provision Nginx Web servers, Tomcat servers, Apache and other applications.
- Experience in working with cluster management and orchestration features embedded in Docker Engine and worked on creation of custom Docker container images, tagging, pushing the images and Dockers consoles for managing the application of life cycle.
- Extensively used Docker/Kubernetes for containerization, virtualization, Ship, Run and Deploy the application securely to fasten Build/Release Engineering. Involved in Provisioning AWS Infrastructure using Ansible scripts from Jenkins.
- Experience in working with container clusters like Docker Infrastructure.
- Experienced in keeping up and looking at log archives using monitoring tools like Cloud Watch and ELK Stack.
- Experience in computerization utilizing Python scripting.
- Experienced in installing, updating and keeping up RedHat Enterprise Linux, CentOS, Ubuntu, SUSE Linux and Windows based platforms.

Technical Skills

SCM Tool	GIT,GIT HUB
BUILD tools	Maven
Configuration Tools	Ansible,Adhoc Command ,Ansible-Galaxy
Application Server	Nginx,Apache Httpd,Tomcat
CI/CD Tool	Jenkins
Scripting Tools	Bash,Python Boto3
AWS Cloud Environment	EC2, EBS, S3, VPC, Cloud Trail, Cloud Watch, Route53, EBS, Load Balancer, Elastic IP, Security Groups, Auto-Scaling, IAM, Code Build, Code Commit, Code Pipeline, CLI, Auto Scaling,SNS, EKS.
GCP Cloud Environment	VM Instance ,Cloud Storage,VPC,Persistent Storage, AppEngine ,Cloud Run, GCloud Shell ,IAM ,Cloud DNS,
Container and Orchestration Tools and Other	Docker and Kubernetes(K9S CLI),Helm,ArgoCD
Monitoring Stack	Prometheus,NodeExporter,Grafana,Alertmanager
Logging Tools	ELK Stack (Elastic search,Logstash,Kibana)

Technical Experience Details

Company : OPT IT Technology , Bangalore

Designation : Devops Engineer

Duration : July 2021 to Till

Project Details: 1. Karmayogi Bharat (Government Project), 2.Tekdi Technologies (OTPs)

Roles & Responsibilities

- ❖ **Administration AWS** : Cloud life cycle, multi-tier architecture, configure infrastructure, implementing Backup,IAM User Management,EC2 Machines ,Data Life cycle Management Using S3 ,High Availability by deploying Multiple region , Databases Management . Application Deployment .
- ❖ **Continuous Integration and Deployment(Jenkins)**: Implement and maintain CI/CD pipelines to automate the build, test, and deployment processes for software applications.

- ❖ **Containerization and Orchestration (Docker and Kubernetes):** Orchestrated containerization with Docker, ECS and Kubernetes Cluster (EKS) to ensure application scalability and consistent deployment environments. Also use Helm Chart to package K8s resource deployment .
- ❖ **Infrastructure Automation(Terraform):** Design, build, and manage infrastructure provision tools (Terraform) to automate the provisioning and scaling of cloud resources.
- ❖ **Monitoring and Troubleshooting:** Set up monitoring systems (e.g., Prometheus, Grafana, ELK, CloudWatch, CloudTrail,) to track system performance, identify bottlenecks, and proactively address issues. Investigate and resolve incidents to ensure high availability and performance of the infrastructure.
- ❖ **Configuration Management:** Manage configuration files, automate system configurations, and maintain consistency across environments using tools such as Ansible.
- ❖ **Daily Automation :** Using Shell Scripting used to execute the all day today activities .

Company : Inspirisys Solution Limited

Designation: Technical Support Engineer

Duration : Dec 2019 to June 2021

Roles & Responsibilities :

- Setup and maintain log-monitoring using Elastic Search, Log Stash and Kibana.
- Responsible for creating the EC2 instances and machines in AWS cloud for development set of the machines for quick integration and deployment into development and QA.
- Implemented AWS solutions using EC2, S3, RDS, EBS, Elastic Load Balancer, Auto Scaling groups.
- Creating/Managing AMI/Snapshots/Volumes, Upgrade/downgrade AWS resources (CPU, Memory, EBS)
- Infrastructure development on AWS using various services like EC2, S3, RDS, Route 53, Cloud Front, Cloud Watch, IAM, VPC etc.
- Setup and managed backup and recovery using snapshot.

Company : Cyber Trendz IT Services

Designation : Desktop Support Engineer

Duration : Jun 2018 to Nov 2019

Roles & Responsibilities

- Installing, configuring and troubleshooting of various operating systems of Windows and Linux.
- Troubleshooting network connectivity in a LAN/WAN environment.
- Physical verification of IT assets on quarter basis.
- Office 365 and Outlook 2016
- Keeping track of AMC & Warranty of Systems.
- In-Charge of maintaining all Hardware and Create Inventory Accordingly.

Academic Details

Education	Institution	Board	Year of passing	Percentage
B.A	I.G.N.O.U	Board Of Odisha	2015-2020	60 %
PGDCA&TALLY	S.I.T.D	Board of Odisha	2014-2015	70%
C.H.S.E	Pallishree Mahavidyalaya	Board Of Odisha	2008-2010	60 %
H S E	Beenapani High School	Board Of Odisha	2007	43 %

Personal Profile

Father's name : Baliram Behera
Date of birth : 07-07-1992
Gender : Male
Nationality : Indian
Linguistic proficiency : English, Hindi, Oriya, Bengali.
Address : #36, Behera para, Kushkela,
Titilagarh, Balangir, Odisha, Pin-767066.

Declaration:

I hereby declare that all the details in the application are true, complete and correct to the best of my knowledge and belief.

Place: Bangalore

Date:
