EXPERIENCE

Physics Wallah

Associate Java

📅 Aug 2023 – Nov 2023

📍 Bangalore, India

- Facilitated three design thinking workshops for end users to identify use cases and technical issues. conducted API design and development of **RESTful** Services in 3 months, enhancing operations of the enterprise product in the business.
- Built web services with **J2EE** that was used by the customer-facing application to improve the time on page for the average user by 2 minutes alongside another developer to implement **RESTful** APIs in **Spring boot** that enabled the internal analytics team to increase reporting speed by **24%**

Infosys Pvt Ltd

System Engineer

📅 Sep 2021 - Feb 2023

📍 Bangalore, India

- Developed and optimized Java backend components for high-traffic web applications, resulting in a 20% reduction in response time and Increased overall system performance.
- Enhanced the client application by implementing bulk upload functionality, resulting in a 30% reduction in user effort and time for uploading large amounts of information.
- Implemented efficient API handling for seamless bulk data transfer and processing, resulting in a 40% reduction in data transfer time and enhanced user experience.
- Integrated database systems, such as MySQL using JDBC and Hibernate ORM, ensuring data persistence and efficient querying.
- Revamped complex Java-based algorithms and programs, pinpointing crucial issues and implementing innovative solutions; successfully decreased runtime errors by 32% and boosted overall system performance by 25%.
- Developed and deployed Java web applications on Microsoft Azure cloud infrastructure, leveraging Azure Functions and Azure SQL Database to optimize scalability and achieve 50% faster response times.
- Participated in agile development processes, including sprint planning, daily stand-ups, and retrospectives.

CERTIFICATIONS

- Infosys Certified Spring Associate ([Certificate Link](#))
- Full Stack Engineer Certificate ([Certificate Link](#))
- Microsoft Certified: Azure Administrator Associate (AZ-104) ([Certificate Link](#))
- Microsoft Certified: Azure Fundamentals (AZ-900) ([Certificate Link](#))
- Made **20+ Personal Projects** in Web Development (Frontend + Backend) using Different Web Technologies.
- Solved Over **500+ Coding Questions** on [Leetcode](#).

TECHNICAL SKILLS

- Languages:** Java 8, JavaScript
- Frameworks:** Spring Boot, React.js, Node.js
- ORM tool:** Hibernate/Jpa
- Web Technologies:** HTML, CSS
- Databases:** MySQL, DB2, MongoDB
- API Documentation:** Swagger
- Testing Framework:** Junit, Mockito
- Build tool:** Maven, npm, Yarn
- Version Control:** Git, Bitbucket
- CI/CD pipeline:** Bamboo, Jenkins
- Containerization/Orchestration:** Docker
- Cloud:** Azure
- Developer Tools:** Eclipse, IntelliJ, VS Code, DbVisualiser, Postman
- Collaboration Tools:** Jira, Confluence
- Methodologies:** Agile/Scrum

PROJECTS

Cricket Live Scoreboard and Commentary

- Tools:** Eclipse IDE, Visual Studio code, Postman
- Technologies used:** Spring Boot, MySQL, Spring Data JPA, Angular, Tailwind CSS, Bootstrap
- Cricket Live Scoreboard using cutting-edge technologies and advanced data visualization methods, resulting in a remarkable increase in user engagement and extended session duration by **45%**.
- Spearheaded the integration of **Spring Data JPA** to revolutionize MySQL database interactions, driving a **30%** increase in data processing speed and enabling seamless data management. [[GitHub Link](#)]

Modern Hospital Management System

- Tools:** Eclipse IDE, Visual Studio code, Postman
- Technologies used:** Spring Boot, MySQL, Spring Data JPA, Servlets
- Hospital Management System using **Apache Tomcat** within the **Java framework**, streamlining patient data management and reducing administrative workload by **10%**.
- Implemented a comprehensive system upgrade for hospital activities, enabling 500+ users to seamlessly access and interact with real-time updates on patient admissions, appointments, and critical information, resulting in a **15%** reduction in administrative errors and improved patient care. [[GitHub Link](#)]

Video Call Application

- Tools:** Visual Studio code, Postman
- Technologies used:** ReactJs, Material UI, JavaScript, CSS, HTML, Node Js, RestAPI
- Created web applications with input validations that eliminated **78%** of user-generated errors using **NodeJs, CSS, HTML, JavaScript** and HTTP server.
- Demonstrated proficiency in ensuring optimal responsiveness on mobile phones, computers, and tablets, delivering a universally accessible and seamless video-calling with audio experience, a crucial aspect in today's remote working environment. [[GitHub Link](#)]

Honda Showroom Website

- Tools:** Visual Studio code, Postman
- Technologies used:** HTML, CSS, JavaScript
- Redesigned a cutting-edge Honda showroom website, building interactive features and a comprehensive vehicle catalogue, resulting in a **30%** increase in website conversion rate and a **25%** surge in test drive bookings.
- Defined the inquiry form, resulting in a **25%** increase in form completions and improving lead generation efficiency. [[GitHub Link](#)]

ACHIEVEMENTS

Ranked **13th** in the Global Knowledge Technical Trainer Challenge organized by **Shine** (March 25-26, 2023). [[Link](#)]

EDUCATION

B.Tech in Information Technology - 7.42/10 CGPA

Dr. Ambedkar Institute of Technology for the Handicapped

📅 2017 – 2021

📍 Kanpur, Uttar Pradesh
