

Devisyamkumar
Kanakam DevOps
Engineer

Contact No : +91-7013468504

Email : devisyamkumar46@gmail.com

Objective:

To work on challenging assignments in a progressive organization that would leverage my technical experience to the fullest potential and align my growth with the growth of the organization.

Professional Summary:

- A technology enthusiast with 2 years of overall experience in Devops and AWS Cloud Architecture and Azure Cloud architecture
- Experience in version controller tool like GIT
- Experience in **Maven** as a build tool for building deployable artifacts (WAR) from source code.
- Extensive experience with **CI tools (Jenkins)** for regular builds, monitoring cron jobs, and reporting status.
- Building the CI/CD pipeline for the Java applications
- Good experience in **Jenkins, Docker, Git** for continuous integration and end to end automation for all build and deployments.
- Maintain code repository standards (GIT), improve practices of branching and code merge.
- Application Deployment and environment configuration using **Ansible**.
- Responsible for **creation playbooks** and **uploading** management of **Ansible playbook**.
- Hands on Experience with core concepts such as setup, **Inventory, Playbooks, Roles, Tasks and Modules in Ansible**.
- Developing the ansible roles for infrastructure automation
- Writing the Docker files for java applications
- Good understanding of **Docker** (Docker components, Docker Engine, Docker Registry).
- Good knowledge and understanding of Kubernetes.
- Building and Managing the production ready Kubernetes cluster set-up with 50+ containers
- Deploying the Kubernetes setup on aws using kops
- Good knowledge of AWS services like Elastic Compute Cloud (EC2), and Knowledge on Auto Scaling and load balancing.
- Automating the things using Python and Ansible playbooks of where it requires.
-

Technical Proficiency:

SCM Tools	GIT, TFS
Build Tool	Maven

Continuous Integration Tool	Jenkins, Code Pipeline
Repository Manger Tool	Nexus,Jfrog
Configuration Management Tools	Ansible
Containerization Tool	Docker and Kubernetes
Health Monitoring Tool	Nagios,Cloud Watch,Grafana,Prometheous.
Scripting Language	Shell Scripting,Groovy,Yaml
Cloud Technology	AWS,Azure,Gcp
Bug Tracking Tool	JIRA,Azure Boards

Education:

Bachelor of Technology from Sri Venkateswara College of engineering and Technology.

Professional Experience:

FADEL SOFTWARE SOLUTIONS PRIVATE LIMITED OCT-2022 to till date

Environment: Sqlserver, Linux, Git,Jenkins,Sonarqube, Tomcat,Nginx, AWS,

Azure, Ansible, Docker,.

Responsibilities:

- Build deployment pipelines using Jenkins as front end for continuous deployment to local staging and test environment and to PROD environment on demand using Ansible and shell scripting.
- Gathering Information from the Clients and providing consultation by performing POC and setup the Build/Deployment and Release Management.
- Creating and maintaining documentation of the build/release process.
- Responsible for using Maven and GIT as build tools for the building of deploy artifacts (jar, war & ear) from source code.
- Worked with GIT to manage source code repositories and performed branching, merging, and tagging depending on requirement.
- Experienced in MAVEN to Build artifacts and deploy.
- Involved in Deployment of the application using Tomcat
- Launch the EC2 instance based on requirement, performing the instance stop, start and reboot actions based on requirement
- Deploying the WAR files in Tomcat Server

- Working closely with Internal/External Stakeholders, Development Architects/Managers & developers, across locations, to ensure timely delivery.
- Manage and support full application stacks from the OS through custom applications using Amazon cloud-based computing environments.

Strong ability to solve operational problems, with ability to identify and automate common routines.

- Strong understanding of service scalability especially in relation to performance, reliability and cost.
- Independent, structured way to work, strong awareness of quality.

SMS PHARMACEUTICALS PVT LTD April2021-May2022

- I completed a one-year internship that was a pivotal and enriching experience in my journey towards personal and professional growth. During this internship, I had the opportunity to immerse myself in a real-world work environment, gaining invaluable hands-on experience and insights into my chosen field.
- Storing files in aws s3 buckets.
- Taking backups from the aws ec2 instances.
- Providing permissions to users and groups.

Declaration:

I hereby declare that all stated in this form are true to the best of my knowledge and belief.
