

Kaviya B

Dynamic Full-Stack Developer and Senior Analyst

As a Senior Analyst and React Developer with over 7 years of experience, I have honed my skills in various technologies, including Full Stack development, React JS, and Java. My journey in software development began at KaaShiv Infotech, where I contributed to diverse projects ranging from bill management systems to comprehensive recipe apps. My tenure at HCL Technologies solidified my expertise in transitioning management roles and providing efficient solutions to global clients. With a keen eye for detail and a commitment to delivering high-quality code, I am poised to add significant value to dynamic and innovative technology teams.

PROFESSIONAL EXPERIENCE

Software Developer

Dec '22 - Aug '23

KaaShiv Infotech

Chennai

- **React JS Development for Bill Management System:** Engineered a user-friendly Menu and Billing page **utilizing React JS** and Bootstrap for **seamless navigation and display**. Implemented dynamic pricing functionality with JavaScript, enabling real-time calculation of total amounts based on **selected dishes and quantities**.
- **React Native Application for Cookbook Recipes:** Developed a comprehensive recipe web page using React Native, featuring **categorized recipe divisions** for an intuitive user experience.
- **Java-Based User Login Interface:** Created a secure user login page using Java, integrating **JSwing for label design and JQuery for enhanced operational functionality**.
- **Full Stack Development of Plant Shop Portfolio:** Constructed a visually appealing Plant Shop Portfolio website **using HTML5 and Bootstrap framework**, showcasing a range of plant products in an interactive layout.
- **Interactive UI/UX Design Implementation:** Focused on creating engaging and responsive user interfaces across projects, ensuring a **blend of functionality and aesthetic appeal**.
- **Diverse Project Engagement:** Demonstrated versatility in software development, from managing billing systems and recipe applications to **designing e-commerce platforms**, leveraging a **wide range of technologies and frameworks**.

Senior Analyst

Sep '16 - Nov '22

HCL Technologies

Chennai

- **Global Pharma Industry Transition Management (2021-2022):** As Transition Manager, **facilitated effective chat support**, driving the expansion and alignment of team capabilities for **enhanced operational efficiency**.
- **European Airline Request Management (2021-2022):** Managed comprehensive request, telephonic, and field support, ensuring **streamlined service delivery and customer satisfaction**.
- **European Insurance Company Queue Management (2021):** Spearheaded transition and queue management across Europe and APAC regions, **optimizing process flows and service responsiveness**.
- **Global Medicine Company Command Centre Leadership (2019-2021):** Led the SAP Command Centre as Shift Lead, overseeing **Unix/Linux log validation, network service scripts, critical incident management, and IBM maintenance**.
- **American Bank ITIL Process Management (2018):** As an ITIL Process Manager, adeptly handled incident and **change management**, **SNOW lifecycle development**, and **ensured governance & compliance with CISA standards**.
- **American HealthCare Provider Linux Administration (2017-2018):** Functioned as Linux Admin, conducting Unix/Linux tasks, **Root Cause Analysis for incidents, automation engineering, and problem management** in the data center.
- **Diverse Role Proficiency and Operational Excellence:** Demonstrated versatility in handling multiple roles across different sectors, including healthcare, banking, and insurance, with a focus on **compliance, incident management, and seamless transition efforts**.

EDUCATION

MBA in Technology Management

May '20

Anna University

Chennai

Project: Shopping Website Enhancement; CGPA: 7.0

ME in Power Systems

May '16

Velammal Engineering College

Chennai

Project: Wind Energy Systems; CGPA: 8.4

BE in Electrical & Electronics

Velammal Engineering College

May '14

Project: Image Processing; CGPA: 8.4

Chennai

SUMMARY

Over the years, I have worked in the domains **Linux, Technical Support, Cloud Computing, Networking, Programming languages, Web development, Quality Assurance and Machine Learning**.

My experience was enriched further by working on **challenges** in **Information Security, Software development, Technical Support, Database & Storage administration and Network Management**.

My **competencies** are **active learning, analytical thinking, complex problem-solving, communication, cognitive flexibility, digital literacy, emotional intelligence and leadership**.

I would like to **advance** my career path in the areas of **Programming, Artificial Intelligence, Data Analysis, Machine Learning, Cyber-security, Web development, Cloud Computing and Mobile App development**.

CORE SKILLS

Development Technologies: Full Stack Development (HTML5, CSS3, Bootstrap), React JS & React Native, PHP, J Swing

Database Management: MySQL

Development Tools: Microsoft Visual Studio Code, XAMPP

Programming Languages: C, C++, Core Java

Operating Systems: Red Hat Enterprise Linux 7 (RHEL 7)

Big Data Technologies: Hadoop Ecosystem, AWS, Data Warehousing ,Pig Latin

Frameworks and Libraries: Java, React

OTHER SKILLS

IT Service Management: ITIL Certified

Technical Operations Management: ServiceNow (SNow)

Software Development: Java, React JS Development

NOTABLE ACHIEVEMENTS

- Stanford Health Care, USA: Completed LPIC-2 Training and ITIL Certification.
- Health Care Service Corporation, USA: Completed CISA Training.
- Novartis AG, Europe: Shift Lead for IBM Maintenance Monitoring. Developed scripts for network service uptime to facilitate cloud server backups.
- Munich Re, Germany: Queue Manager for EMEA and APAC regions.
- GSK, Europe: Innovated new team scopes for diverse issue management.
- easyJet, Europe: Efficiently resolved a high volume of backlogged and new service requests.
