Summary

Skilled software engineer specializing in web and mobile application development, committed to delivering top-notch solutions and enhancing user experiences.

Education

Sapthagiri College Of Engineering, Bangalore

Computer Science Engineering, Bachelor of Engineering

2019 – 2023

CGPA: 8.86

Government Boys Senior Secondary School, New Delhi

12th board

2017 – 2018

Percentage: 73.6

Heera Public School, New Delhi

10th board

2015 – 2016

CGPA: 8.8

Technical Skills

Languages: C++, C#, Java, Kotlin

Web Technologies: Javascript, Typescript, HTML, XML, CSS

Database: Microsoft SQL Server, MySQL

Frameworks: ASP.NET, React.js, Redux

Cloud Services: Azure

Experience

SafeSend Technologies Private Limited

Feb – Sep 2023

Graduate Engineer Trainee

Bangalore

- Implemented HTML, CSS, TypeScript, React, and Redux for front-end. Engineered robust C#, .NET MVC, and microservices for back-end solutions. Created REST API endpoints for seamless client-side data transmission, managing data flow.
- Provided clear insights into data flow through Azure Service Bus queues for inter-service communication. Conducted unit testing, ensuring software dependability. Gained expertise in Azure tools, AGILE methodologies, MVC architecture, and SOLID principles.
- Resolved frontend and backend bugs, enhancing overall system performance. Authored README documentation for microservices.
- Identified and debugged applications, decreasing error tickets by 60%. Proactively improved speed and functionality across various components.

Kaizen Young Consultants

Nov 2023 – Currently

Frontend Developer

Pune

- Implemented responsive and visually appealing user interfaces using React, ensuring a seamless and intuitive browsing experience for e-commerce customers.
- Collaborated with the design team to integrate modern UI/UX principles, resulting in improved navigation, increased user engagement, and ultimately driving higher conversion rates.

Projects

Ecommerce | React, C#, .NET, MS SQL

Jan – Apr 2023

- Developed a robust e-commerce platform using React and Redux for frontend components and C#/.NET Framework for backend, following MVC architecture. Employed Microsoft SQL Database for efficient data management.
- Implemented secure user authentication and designed key pages, including the home page, product catalog, shopping cart, and secure payment page, to enhance the overall user experience.

SyncScribe | HTML, CSS, Typescript, React

Nov – Dec 2023

- Developed a React-based project notes application with an intuitive design.
- Implemented seamless Create, Read, Update, and Delete (CRUD) operations for efficient project note management.

Achievements

- Solved over 300 problems on websites like LeetCode, Codestudio and GeeksforGeeks.

Certifications

- Cloud Engineering track and Data Science and ML track in the 30daysofgooglecloud program
- HackerRank Java Certificate
