WORK EXPERIENCE

Fujitsu

Apprentice Trainee

Chennai, TN

Jun 2023 - Present

Project Title: Post Nord

Technology Used: ITIL, ITSM

Tool Used: Fresh Service (Customised ServiceNow)

- Orchestrated ticket management and coordinated catch and dispatch operations for clients within the Post Nord project.
- Led the handling of service request tickets, including provisioning user access to ensure optimal end-user satisfaction. Implemented quality control for ticket accuracy.
- Maintained regular and proactive communication with clients to provide updates on ticket progress and resolutions.

PROJECTS

The Website for Restaurant

Mar 2023 - Apr 2023

I've initiated this project and worked on the Frontend and Backend System. It's built with HTML5, CSS3, typescript, and Angular framework for Frontend, Spring boot for Backend, and MySQL for Database management. I have contributed to connect Frontend and the Backend, and the designing part of the website.
