🌐 kushalaralpati 📍 Davanagere, India

PROFILE

Results-driven data scientist with excellent leveraging machine learning concepts to develop impactful solutions. Well-versed in the intricacies of machine learning models, with a solid understanding of the underlying mathematical concepts. Proven proficiency in applying statistical techniques to analyze data, extracting actionable insights to drive informed business decisions.

EDUCATION

Bachelor of Technology - Electronics and Instrumentation Engineering, 2017 – 2021
Bapuji Institute of Engineering and Technology Davanagere, India
Coursework: Neural Networks, Programming language (python, java), Mathematics.

TECH STACK

Programming Language	Libraries	Tools
Python, Java, PostgreSQL, SQLite	Numpy, Pandas, Matplotlib, Seaborn, Scipy, Sklearn, NLTK, Spacy, Librosa	Tableau, Power BI, Ms Office Excel, Kaggle, Jupyter Notebook, Google Colab

PROFESSIONAL EXPERIENCE

Data Science Trainee, AlmaBetter 06/2023 – present

- Developed skills like **Data Wrangling, Feature Engineering, Data Structure and Algorithms, Data Visualization, Microsoft Excel, Tableau, Power BI and Machine Learning** also attained professional readiness through proficiency in **SQL for Database Management** and Python programming.
- Executed Time Series Analysis, Natural Language Processing and Customer Segmentation.
- Worked on Airline Passenger Prediction, Global Terrorism EDA and Gold Prize Prediction

Data Science Intern, Oasis InfoByte 🌐 present

I have successfully completed multiple tasks related to Machine Learning projects, such as Iris Flower classification, Email spam Detection and Car price Prediction. Furthermore, I have extensively trained and evaluated machine learning models, and created visualizations to effectively communicate the results.

COURSES

Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation, Forage 🌐 10/2023

- Completed a simulation involving creating data visualizations for Tata Consultancy Services
- Prepared questions for a meeting with client senior leadership
- Created visuals for **data analysis** to help executives with effective decision making.

- Acquired proficient command of Excel functionalities and data analysis techniques, including data cleansing, and manipulation, and conditional formatting techniques.
- Acquired proficiency in automation by learning to record macros and script in **Visual Basic for Applications (VBA)**, developing two functional macros integrated with buttons using account sales data.
- Gained expertise in **data visualization** and **storytelling using Excel** and **PowerPoint** by creating impactful charts and **interactive dashboards**.

TCS iON Career Edge - young Professional, TCS iON [🔗](#)

- I acquired a comprehensive set of professional skills through this course, which includes proficiency in areas like presentation skills, business etiquette, accounting fundamentals, effective communication skills, and participating in group discussions.
- Moreover, I also gained a broad understanding of Artificial Intelligence.

PROJECTS

Border Security System,

Tags: Ultrasonic sensors, PIR sensors, Arduino Uno microcontroller, embedded c programming language

- successfully integrated various hardware components, such as ultrasonic sensors, lasers for invisible fencing, PIR sensors for motion detection.
- All these components are controlled by an Arduino Uno microcontroller, embedded C programming within the **Arduino IDE**.

Global Terrorism Analysis, AlmaBetter [🔗](#)

- Visually represented the results of **Exploratory Data Analysis (EDA)** on global terrorism to conduct a thorough analysis of terrorist activities worldwide.
- Cleaned, preprocessed data to handle missing values outliers and redundancy & generated visually appealing graphs and charts for different types of variables.
- Design and Implemented data storytelling technique to effectively communicate insights and findings.
