

MANISH B

Mobile: 9741901045/ E-Mail: manishgoudar25@gmail.com

To secure a position in a well-established organization which has healthy environment that will lead to a lasting relationship and enables me to use my good communicational and organizational skills, educational background, and the ability to work well with people and to ensure unrestrained vertical growth.

Profile Summary

An aspired Cloud Engineer and Kubernetes Administrator with over 4 years' experience in IT Industry having hands on the AWS cloud architecture and Managing or Deploying the Kubernetes cluster in AWS EKS. Also Managing or deploying of containerized applications in Kubernetes. Strengths include Good Communication, People Management and an appetite to learn new and trending technologies and tools.

TECHNICAL SKILLS

- Setup/Manage Windows Server on Amazon (EC2, EBS, ELB, Auto scaling, Security Groups, RDS and IAM).
- Using EC2 service and create a Windows and Linux instances.
- Using IAM to create GUI and CLI users.
- Setup/Managing VPC, Subnets; make connection between different zones; Blocking suspicious ip/subnet via ACL.
- Configuring VPC Peering in same region and different region
- Using NAT Gateway (to allow internet access to backend servers without assigning them public IP)
- Configuring launch configuration and auto-scaling group with load balancer using load balancer metric.
- Setup/Manage Databases on Amazon RDS.
- Create/Managing AMI/Snapshots/Volumes, Upgrade/downgrade AWS resources (CPU, Memory, EBS)
- Configuring Site to Site VPN- AWS and Azure connectivity.
- Installation and Configuration of Kubernetes Architecture like Pods, ReplicaSets, Namespaces, etc. by writing YAML Scripts.
- Writing YAML script for deployment of storage, Persistent Volume (PV) & Persistent Volume Claim (PVC), etc.

ACHIEVEMENTS

APPLAUSE AWARD (July 2023)

Received an Applause Award for Professional approach towards work and being top contributor of resolving tickets.

SPOT AWARD (June 2019)

Received a Spot Award for Customer Satisfaction, where more than 200 filters including subcomponents were designed and modified

Certifications

- AWS Solution Architect Associate 2021

ORGANIZATIONAL EXPERIENCE

Tata Consultancy Services (Feb 2022 – Present)

System Engineer:

- Managed and troubleshooted Kubernetes cluster in different cloud platforms like AWS EKS and GKE.
- Deployed and configured new clusters for customer workloads, ensuring reliable and optimized Performance.
- Provided expert support in configuring advanced features such as ingress, node affinity, taint solutions, CNI plugins, namespace management, and RBAC to optimize cluster performance and security.
- Streamlined deployment processes using Helm charts, facilitating efficient management and version Control of Kubernetes applications Successfully handled the management of ConfigMaps and Secrets in the Deployment process, ensuring secure and efficient configuration management for applications and Sensitive data.
- Maintained high availability of workloads deployed in the clusters, effectively managing and troubleshooting any potential issues.
- Managed and maintained 30+ clusters, ensuring the availability and optimal performance of various micro-applications deployed on Kubernetes.

- Implemented and monitored readiness and liveness probes for application health checks, proactively identifying and resolving potential issues to maintain high availability.
- Collaborated with development teams to define and implement best practices for application deployment, scaling, and performance optimization within the Kubernetes.
- Actively participated in capacity planning and scaling exercises, ensuring the infrastructure was equipped to handle increasing workloads and maintain optimal performance

Mann And Hummel filter Pvt Ltd (Nov 2018 – Nov 2019)

PROJECT TRAINEE:

- I was a part of MANN PUROLATOR UNITED STATES team with experience on Amazon S3 (Simple Storage Service) and have ample Hands-on experience on the CATIA V5 tool.
- As a part of a project, I accessed data such as: Step files, Design Parameters and Customer Drawings for more than 200 filters from the Amazon S3 Containers.
- The team worked on PART Design, ASSEMBLY of the Parts and Detailed Drawing of the Assembly and parts ensuring all the GD&T requirements.
- I worked on uploading the completed PART Design, ASSEMBLY of the Parts and Detailed Drawing of the Assembly to the Amazon S3 Containers for further review by the counterparts.
- The design was mainly regarding Oil Filters, CAF Filters and Air Filters.

High Tech Machines and Equipment (Jul 2017 – Nov 2018)

DESIGN ENGINEER:

- During my tenure I was working on 2D drafting of Hydraulic components, Hydraulic Press parts drawings and hydraulic circuit drawings.
- Managing Budgets and Generating reports in AWS Console.

EDUCATION

BE (Automobile Engineering) from B. V. Bhoomaraddi College of Engineering and Tech, Hubli, Karnataka in 2017 with CGPA of 6.91
