

MARY LINCY M

Bangalore,Karnataka,India.

+91 8668100170 | marylincy86@gmail.com

OBJECTIVE

To leverage my foundational knowledge in Java programming and passion for software development to contribute creatively in dynamic projects.

EDUCATION

Bachelor of Engineering (Electronics and Communication Engineering) 2023
Stella Mary's College of Engineering
Cumulative GPA: 8.4

HSC 2019
Evans Matriculation Higher Secondary School
Percentage:80%

SSLC 2017
Evans Matriculation Higher Secondary School
Percentage:98.6%

TECHNICAL SKILLS

Programming language:Core Java,Python

Web Development:HTML,CSS, Javascript,JDBC,J2EE,JSP Servlets

Framework: Bootstrap,Springboot,Hibernate,Angular

Database:MySQL,MongoDB

PROJECTS

Chatbot for tourism April 2023

- Implemented a Chatbot for Tourism using HTML, CSS, and JavaScript, integrated with MongoDB for data storage.
- The Chatbot provides personalized assistance to tourists, offering information on attractions, accommodations, and activities based on user preferences.

Cafe billing system management August 2023

- Developed a comprehensive Cafe Billing System Management application using Java and JDBC, enabling efficient and user-friendly management of cafe transactions.
- The Cafe Billing System Management project showcases my ability to design and implement practical solutions for business operations within the hospitality industry.

An e-commerce shopping website October 2023

- Developed a dynamic E-commerce Shopping Website using HTML, CSS, and JavaScript, with backend functionality implemented in Java.
- Through this project, I gained valuable experience in full-stack web development, combining frontend technologies with Java backend solutions to create a scalable and efficient E-commerce platform.

INTERNSHIP EXPERIENCES

Internship training on Frontend Web development

Company Name: Cad Point

Location: Marthandam, TamilNadu.

Year: 2022

Responsibilities:

Worked collaboratively with senior developers to implement design mockups and optimize website performance.

Achievements:

Honed skills in problem-solving, code debugging, and project management within a team environment.

Internship training on Embedded with IoT and AI

Company Name: NSIC (National Small Industries Corporation)

Location: Chennai

Year: 2022

Responsibilities:

Acquired knowledge in developing embedded systems applications, including interfacing sensors and actuators, and implementing IoT protocols for data communication.

Achievements:

Demonstrated adaptability and a proactive approach to learning new technologies and methodologies during the internship.

CERTIFICATIONS

PG Diploma in Full stack Java development

Cranes Varsity, Bengaluru.

Diploma in Computer Applications

CSC Institute, Nagercoil.

LANGUAGES

English

Tamil

SOFT SKILLS

Problem solving and strong analytical thinking

Active collaboration
