EXPERIENCE

Software Engineer - iOS Developer

Jun 2022 - Aug 2023

Raja Software Labs Pvt. Ltd.

- Worked on the Google Home automation based iOS application having 1 Million+ downloads and active users.
- Enhanced the WiFi and Thermostat (home automation devices) related app user experience, all while adhering to the MVVM design pattern.
- Contributed to the camera pairing flow used to pair the camera to the user account.
- Worked on request and response mechanism to update app data.
- App Link: [Google Home App](#)

Software Engineer Intern - iOS Developer

Apr 2022 - May 2022

Raja Software Labs Pvt. Ltd.

- Improved iOS development skills in Swift, Objective-C, and UIKit, as well as networking frameworks such as URLSession.
- Applied various design patterns used in iOS like MVC and MVVM.
- Implemented various iOS concepts like Auto Layout, Closures, Delegates, UICollectionView, Rest-API, Threading, Deeplink support, Accessibility, Notification Integration, and Test-driven development etc.

TECHNICAL SKILLS

Programming Language	Swift, SwiftUI, Objective-C
Development Platform, Tools	Xcode, UIKit, Core-Data, Cocoa Touch, CocoaPods, API, RESTful APIs, Memory management, Firebase (Crashlytics, Cloud Messaging), SDK, Threading, OOPs, Data Structures, Webservices (URLSession, Alamofire)
Design Pattern	MVP, MVC, MVVM, VIPER, Singleton
Environment	Agile software development methodologies, Unit-Testing(TDD)
Source Control	Git, Mercurial

EDUCATION

Dr. Vishwanath Karad MIT World Peace University (MIT-WPU), Pune

2018 - 2022

Bachelor of Technology in Electronics and Communication Engineering — CGPA: 8.65/10.00

La Martiniere College, Lucknow

2015 - 2017

12th — CISCE — Percentage: 81/100

MAJOR PROJECT

Three Level Access Control System for Digital Door Lock.

- Developed a security system with triple-layer security for access control using face detection, RFID, and OTP.
- Implemented a deep convolutional neural network (CNN) algorithm for accurate facial feature extraction.
- Co-authored a research paper on the project for ICSCS. ([Acceptance letter](#))

Movie Database iOS app.

- App which demonstrates a collapsible UITableView with a custom header using the UITableViewDiffableDataSource in Swift. ([Video Link](#))
- Added a search bar which filters content according to the search text, using MVC design pattern. ([Github Link](#))
