Career objective

I aspire to leverage my analytical, problem-solving, solution-designing, and quick-learning skills to implement effective solutions addressing diverse needs within the IT industry, particularly in software development. Drawing on a strong programming background, my aim is to establish a proactive and fulfilling career path.

Summary

A highly skilled software developer with 1.8 years of experience and has a proven track record in elevating software functionality and showcasing robust problem-solving abilities. Specializing in full-stack development, I offer expertise in SQL development, marked by meticulous attention to detail and a profound understanding of database design. Recognized for effective collaboration with business stakeholders, I adeptly comprehend their requirements and translate them into efficient and scalable design solutions. As an effective communicator and team player, I excel in optimizing performance, speed, quality, and usability. Proficient in troubleshooting technical issues and implementing solutions, with a solid foundation in agile methodology. Proven ability in implementing and conducting unit testing for quality assurance, ensuring the reliability and performance of applications.

Experience

Eurofins IT Solutions, Associate Software Engineer. **Project 1: Desktop application**

Role: Full Stack Developer

2022 APRIL - PRESENT

Development and maintenance of desktop application using a comprehensive technology stack including the .NET framework, C#, WPF, MVVM, ADO.NET, LINQ and XAML for creating robust and efficient solutions. My proficiency extends to Microsoft SQL Server, where I've successfully optimized performance through the development of intricate stored procedures, ensuring seamless data retrieval from the backend. I collaborate closely with business stakeholders, adeptly understanding their requirements and translating them into efficient and scalable design solutions. Moreover, I bring valuable experience in utilizing Azure DevOps and adhering to agile methodology practices, contributing to streamlined and collaborative development processes. Implemented comprehensive unit testing strategies to ensure robust code quality and functionality.

Project 2: Web application

Role: Full Stack Developer

2022 APRIL - PRESENT

Developed and maintained a robust web application utilizing ASP.NET, C# and Javascript to ensure the delivery of efficient and scalable solutions. Implemented dynamic and responsive user interfaces through JavaScript and AJAX, significantly elevating the overall user experience. Collaborated on seamlessly integrating the web application with an existing desktop solution, resulting in noteworthy enhancements to data flow and the successful implementation of real-time synchronization. Conducted thorough code reviews to uphold quality, readability, and adherence to coding standards. Addressed and resolved bugs promptly, thereby improving application performance and enhancing user satisfaction. Conducted unit testing to validate and ensure the reliability of the integrated system.

Internship

Deloitte **Intern analyst (2021 September – 2022 March)**

Completed 6 months internship at Deloitte, specializing in Google Cloud BigQuery for running large SQL queries to build insights on how the Kroger Ocado sales and transactions happening in Florida city and visualizing those insights using visualization tools like Power Bi.

Skills

C#	WPF	MVVM	Microsoft SQL Server	MySQL	Linq	ADO.Net	HTML	CSS
Javascript	Ajax	Asp.net MVC	Asp.net Web API	XAML	Angular	GIT	Agile methodology	

Tools

Visual Studio 2022

Visual Studio 2019

Microsoft SQL Server 2019

Microsoft SQL Server 2017

Visual Studio Code

Team Foundation Server

GIT

Education

Gitanjali high school

Listening music.

Exploring new places.

Volunteer Activities

Rally for Rivers 2k19

Participated as a volunteer in Rally for Rivers 2k19 at our college, which sought to rally support for initiatives related to river conservation and responsible water management. The primary focus was on highlighting the critical need to safeguard clean water for the benefit of future generations and the protection of wildlife.

Our shared motto: "Water is a treasure; Let's protect it with pleasure".

Work motive

"Always hope for the best, but be prepared for the worst".
