Objective

A motivated Data Science Fresher looking to leverage my strong programming skills in Python and R, analytical aptitude and knowledge of data visualizations to effectively analyze, interpret, and present insights from large datasets in an accurate and meaningful way. Seeking to collaborate with a leading data science and AI team to develop innovative models to detect patterns and trends for complex data-driven solutions.

Experience

- Laksh Source Business Solutions Pvt Ltd** May 2022 - Present
Quality Analyst
 - Implemented advanced **statistical analysis** to identify and rectify defects in the production process, ensuring **high-quality data outputs**
 - Provided meticulous feedback adherence on IQ + EO + Hygiene Audit, **leveraging data-driven** insights for process optimization.
 - Recommended, implemented, and monitored **preventive and corrective actions** using **machine learning models**, upholding and surpassing quality assurance standards.
 - Conducted calibration sessions to ensure consistent **high-quality data interactions**.
 - Analyzed performance results, providing actionable insights and enhancement suggestions for **product efficiencies** and faults.
- Imarque Solutions Pvt Ltd** May 2019 - April 2022
Trainer Cum Quality Analyst
 - Guided onboarding of new customer service representatives with a focus on sales
 - Created all training manuals and documentation, and held many workshops
 - Utilized **data analytics** for precise tracking of candidate progression and targeted instruction on **quality improvement**
 - Created successful training courses based on evaluation of trainee needs
 - Devised long-term training **strategies integrating analytics** for workforce efficiency across departments
 - Reduced **process gaps** by effectively training new hires on best practices and protocols

Projects

- Predicting Nestle India - Historical Stock Price Data**
Achieved a highly accurate **Linear Regression model** for stock price prediction, with an **R-squared** score of **99.99%** and **Accuracy** of **99.64%**.
Link- Stock Prediction of Nestle using linear regression.
- Predict the revenue classification in Online shopping**
Achieving exceptional precision for non-revenue scenarios (**Naive Bayes: Precision 0.91, Recall 0.83, F1 Score 0.87; SVM: Precision 0.83, Recall 1.00, F1 Score 0.91**) Proficient in **nuanced metric analysis**, demonstrating adaptability for business insights.
Link- Predict the revenue classification in Online shopping using logistic regression.
- Predict the house prices by using ensemble techniques**
Implemented regression models including **Decision Tree, Random Forest, AdaBoost, and XGBoost** for housing price prediction. Employed ensemble techniques (**Bagging RMSE: 33,580, Boosting RMSE: 29,384, Voting RMSE: 29,680**) for improved predictive accuracy.
Link- Machine learning algorithm to predict the house prices by using ensemble techniques.

- **Prediction of Insurance Price of an individual**
Designed and implemented a **robust predictive system** for insurance pricing. Utilized a **sophisticated linear regression model** to forecast insurance costs accurately. Demonstrated with a sample input, yielding a **precise** estimate of **\$3587.82**.
Link- Machine learning algorithm to predict the insurance price of an individual

Certification

- **Data Science - Skillovilla (April 2023 to October 2023)**
 - Completed an intensive data science course encompassing advanced topics in statistics, machine learning, and data analysis
 - Executed comprehensive capstone projects for each course section, demonstrating adeptness in applying theoretical knowledge to real-world scenarios.
 - Acquired proficiency in utilizing industry-standard tools and technologies integral to the data science domains

Skills

- Programming Languages: • Python (NumPy, Pandas, Scikit-Learn) • R • SQL
- Machine Learning: • Regression, Classification, Clustering • Feature Engineering • Model Evaluation and Hyperparameter Tuning • Deep learning
- Data Visualization: • Matplotlib, Seaborn, Plotly • Tableau
- Other: • Statistical Analysis • Data Cleaning and Preprocessing • Big Data Technologies (if applicable) • Microsoft office

Education

- | | |
|---|-------------|
| • Anna University
B.E Electrical and Electronics Engineering
6.7 | 2015 - 2019 |
| • E.S Matric Higher Secondary School
12th
81% | 2014 - 2015 |
| • E.S Matric Higher Secondary School
10th
88% | 2012-2013 |

Hobbies

- **Continuous Learning**
Dedicate time to reading books, with a focus on literature related to data science, machine learning, and technology to stay informed about industry advancements.
- **Physical Fitness**
Engage in regular swimming sessions, contributing to a healthy and active lifestyle for both physical and mental well-being.
- **Artistic Expression**
Enjoy singing as a creative outlet, finding joy and relaxation in expressing oneself through music.
- **Musical Appreciation**
Devote time to listening to a diverse range of songs, exploring various genres, and staying attuned to different musical styles.
