#### Career Objective

An efficient engineer with **3.7 years of experience** in the field of **SOC/SIEM**. experience in configuring **SIEM tools** to collect logs from various network devices. Creation/modification/fine tuning of ArcSight resources such as User Administration, Dashboards, Active Lists, Filters, and Reports (Queries and Trends). Investigation on the anomalies and report it to client, eliminate false positives and provide a detailed view to the client with the impact and recommended actions.

#### Professional Summary

❖ **SIEM:**

- Having **3.7 Years** of experience in IT Industry.
- A competent professional with **3.8 Years** of experience in SIEM/SOC, currently associate with **Tata Communication Limited**.
- **Having great exposure in MSSP with large number of client Based which is more than 80+.**
- Hands on experience with **ArcSight SIEM** tool for logs monitoring and analysis Service Now ticketing tool for incidents response.
- Experience on **Splunk Enterprise Security**.
- Experience with Splunk Searching and Reporting.
- Great Exposure with **LogRhythm SIEM tools**.
- **Cyber Security Analyst** with proficient and thorough experience and a good understanding of information technology. Specialized in proactive **network monitoring of SIEM**.
- Good understanding of security solutions like **Anti-virus, Firewall, IPS/IDS, Email Gateway, Proxy etc.**
- Good knowledge on networking concepts including OSI layers, subnet, TCP/IP, ports, DNS, DHCP etc.
- Hands on experience with ArcSight SIEM tool for logs monitoring and analysis.
- Trainings: **SIEM (ArcSight SIEM), SPLUNK(SIEM)**.
- Tools: SIEM (Security Information and Event Management), **ArcSight, SPLUNK, LOGRHYTHM**.

#### Organizational Experience

Senior Technical Associate – in **Tata Communication Limited from Feb 2023 till Date**.

#### Role & Responsibility:

- Monitoring security systems and networks for anomalies
- Work closely with business units to ensure that they know what and how to feed data into the ArcSight SIEM.
- Co-ordinate with networking teams to maintain and establish communication to remote ArcSight Connectors.
- **Investigate malicious phishing emails**, domains, and IPs using Open-Source tools and recommend proper blocking based on analysis.
- **Installing ArcSight Connectors**.
- **Upgradation of ArcSight Connectors**.

- **Integration of new devices** with ArcSight such as Windows, Linux, CISCO Firewall, Routers, Switches etc.
- Doing the **troubleshooting** if any device is not sending the logs to the ArcSight.
- Creation of ArcSight content like **Correlation Rules, Query, Report, Dashboards** etc.
- Maintain keen understanding of evolving internet threats to ensure the security of client networks.
- Performing the investigation and analyzing the critical incident and take the appropriate step based on the SOP.
- Having expertise with **LogRhythm** as a SIEM Tool, whereas Finding Anomaly of Logs based threat hunting.
- Understanding of **architecture of LogRhythm**.
- Creation of **monthly report**.
- Working experience with **PhisER** as a **Anti-Phishing tool**.

**Security Analyst – May 2020- Jan 2023 in Deitya Infotech Pvt Ltd as Security Analyst.**

#### **Job Responsibilities:**
