Objective:

Results-driven cybersecurity professional with a comprehensive background spanning 8 years in the IT industry, including 3.7 years of dedicated experience as a Security Operations Center (SOC) Analyst. Proven expertise in monitoring, analyzing, and responding to security incidents, coupled with a strong foundation in implementing and maintaining robust security measures. Seeking a challenging position where my skills in threat intelligence, incident response, and security best practices can contribute to enhancing an organization's cybersecurity posture.

Experience Summary

- Performed Web Application Vulnerability Assessment & Penetration Testing for O-RAN Platforms (NEAR RT RIC & NON-RT RIC Platforms).
- Performed Penetration Testing of Web Application using tools Nmap, Wapiti, Nessus, AWVS, Open ZAP Proxy & Rapid Scan.
- Conduct proactive monitoring, investigation, and mitigation of security incidents.
- Analyze security event data from the network IDS, Cortex XDR, Splunk, Proof Point, PA Firewall.
- Analyzed the Cortex XDR alerts and did fine tuning of the use cases (Brute Force attack), applied exception on other use cases.
- Perform malware analysis on isolated machine.
- Recognize potential, successful, and unsuccessful intrusion attempts and compromise thorough reviews and analyses of relevant event detail and summary information.
- Ensure the integrity and protection of network, systems, and applications by technical enforcement of organizational security policies, through monitoring of vulnerability scanning devices.
- Investigate Proof Point attachment defense alerts, URL alerts and imposter alerts.
- Conduct log analysis using Splunk.
- Block the malicious and suspicious IOCs in Cortex XDR tool (SHA256, malicious URLs domains, IPs).
- Worked in a 24*7 security operation center.
- Monitoring and analysis of security events to determine intrusion and malicious events.
- Search firewall, email, web, or DNS logs to identify and mitigate intrusion attempts.
- Investigate malicious phishing emails, domains and IPs using open-source tools and recommend proper blocking based on analysis.

Professional Experience

Capgemini Engineering - SOC Analyst *March 2021 – June 2023*

- Responsibilities: Performed Web Application Vulnerability Assessment & Penetration Testing for O-RAN Platforms (NEAR RT RIC & NON-RT RIC Platforms).
- Performed Penetration Testing of Web Application using tools Nmap, Wapiti, Nessus, AWVS, Open ZAP Proxy & Rapid Scan.
- Conduct proactive monitoring, investigation, and mitigation of security incidents.
- Analyze security event data from the network IDS, Cortex XDR, Splunk, Proof Point, PA Firewall.
- Analyzed the Cortex XDR alerts and did fine tuning of the use case (Brute Force attack), applied exception on other use cases.
- Perform
- malware analysis on isolated machine.
- Recognize potential, successful, and unsuccessful intrusion attempts and compromise thorough reviews and analyses of relevant event detail and summary information.
- Ensure the integrity and protection of network, systems, and applications by technical enforcement of organizational security policies, through monitoring of vulnerability scanning devices.
- Investigate Proof Point attachment defense alerts, URL alerts and imposter alerts.
- Conduct log analysis using Splunk.
- Block the malicious and suspicious IOCs in Cortex

Indecomm Business Service - SOC Analyst *July 2020 – Nov. 2020*

Responsibilities:

- Part of SOC Incident Response Team (IRT) monitored and analyzed incidents from different log sources.
- Increased client satisfaction by resolving and preventing future security incidents.
- Utilized Trend Micro AV, Deep Sec. Report, Worry-Free Report for monitoring and reporting.
- Acted as a liaison between departmental groups on information security topics.
- Participated in tier 2 security operations support.

ATOS IT Services PVT.LTD. - SOC Analyst *June 2019 – June 2020*

Project: Conduent

Responsibilities:

- Monitored and analyzed incidents from various log sources using LogRhythm (SIEM).
- Increased client satisfaction by resolving and preventing security incidents.
- Implemented filters and evaluated significant events.
- Utilized Trend Micro AV for monitoring and escalating tickets based on alerts.
- Managed client-specific alerts (FIREEYE) to support onshore team in the USA.

ATOS IT Services PVT.LTD. - System Engineer *March 2017 – June 2019*

Responsibilities:

- Administration of Windows 2008, 2008 R2, 2012 R2 Active directory.
- Installation, Configuration, and troubleshooting of Active Directory, Citrix, VDI.
- MS Azure O365 Mail Installation, Configuration, Troubleshooting.
- Handling customer escalations and various incidents related to user accounts and access.

XL INDIA BUSINESS SERVICES PVT LTD - System Engineer L2*Dec 2015 - March 2017*

Responsibilities:

- Administration of Windows 2008, 2008 R2, Active directory.
- Installation, Configuration, and troubleshooting of Active Directory, Citrix, VDI.
- Vendor coordination for hardware issues, device lock & policy updating.
- Managing and monitoring daily technical issues.

Vayam Info Solution Pvt. Ltd. - System Administrator*Jan 2015 – Aug 2015*

Responsibilities:

- Administration of Windows 2008, 2008 R2, Active directory.
- Installation, Configuration, and troubleshooting of Active Directory, Bit Locker.
- Handling customer escalations and daily technical issues.

Education:

- Certification- Completed Cyber security Training, SIEMXPERT—July 2023-OCT.2023
- Certification in Network administrator, Jetking, Bangalore - 2013-14.
- B.E. in Computer Science Engineering, Skyline Inst. of Mgmt. Technology - 2008-2011.
- Diploma in Computer Science Engineering, Skyline Inst. of Mgmt. Technology - 2005-2008.
- 10th S.H.H.S. of Secondary Education - 2005.

Skills & Competencies:

- SIEM Tools: Splunk, Cortex XDR, LogRhythm.
- Malware Monitoring Tool: FireEye, Wildfire.
- Network Device Monitoring Tool: PA Firewall, FireEye CMS.
- Security Tools: NMAP, WAPITI, NESSUS, BURPSUITE, W3AF, RAPIDSCAN, AWVS, Proof Point, Cisco Sourcefire Defense Center.
- Ticketing Tools: Remedy, Service Now, Easy Vista.
