WORK EXPERIENCE

Analyst

WNS Global Services

12/2021 - Present

Bengaluru

- Spearheaded the design and execution of **Selenium** Test Automation Framework using **Java** for **End to End testing** of web applications, ensuring alignment with industry best practices.
- Perform Business Regression Testing and Production Verification Testing for both Web Applications and **Mainframe** systems via **Automation**.
- Periodic maintenance and execution of **Automation Test Suites** using Selenium with **Ruby** and RSpec for the Guidewire ClaimCenter application.
- Collaborate with onshore team members, including engineering and product management, to deliver business functionality on-time, with required quality, and that meets the acceptance criteria.
- Conduct thorough analysis of **test processes**, data, and **execution metrics**, employing strategic insights to enhance team performance and drive continuous improvement initiatives.

Test Engineer

Infosys Ltd

12/2019 - 12/2021

Bengaluru

- Developed **Automated Test Scripts** for pre-release validation of new functionalities using the Selenium framework, specifically tailored for a Mobile app.
- Conducted **smoke**, **functional**, and **regression testing** across various mobile devices and API services.
- Created **Test cases** for new functionalities, and automated them based on the Automation feasibility.
- Established and maintained **Continuous integration** and **Continuous delivery** pipelines, contributing to streamlined development processes.
