Summary

Experience in Software Engineering, Application and Web Development, Team lead, back end, front end and storage. Excellent design, coding, debugging, communications, interpersonal and problem-solving skills.

Skill

- OOP, PHP, JavaScript, React.js, HTML 5, CSS 3, Bootstrap, jQuery, Databases (MySQL, MariaDB), Smarty, JSON, Restful Web services, Data Structure and Algorithms, STRAPI.
- AWS Cloud Computing, CI/CD pipeline, Docker, Microservices, Curl, GitHub, Agile, Scrum, SOLID Principles, SSO(SAML, OAuth), Design Pattern, MVC, Distributed system, Networking, Artificial intelligence.

Professional Experience

Senior Software Consultant **Infosys Limited (C2H)** **Remote** **02/2023-10/2023**

Project: - Wedbush Intranet Website Migration

- Worked on the website migrating from Drupal 7 to STRAPI CMS. Wrote code for POCs to demonstrate new technologies.
- Developed Rest APIs on the top of our platform to be integrated by other internal teams like operations and finance.
- Collaborate with cross-functional teams including UI UX and project management.

Delivery Module Lead **Mphasis Limited** **Bangalore, KA, IN** **02/2022 – 10/2022**

Project: - LSEG Web Application

- Worked on an enterprise-scale project and developed a Microservices module, UI design, React.js components and functionality.
- Participated in, or led design reviews with peers and stakeholders to decide amongst available technologies.
- Optimizing backlogs and debug errors resulting in a 20% reduction in project timeline and meeting 100% of client requirements on time.
- Mentor and onboarded a team of 4 software developers in our team to upskill them on the best engineering practices.

Software engineer BA - II **Etech Global Service** **Remote** **03/2021 - 02/2022**

Project: - Customer experience platform

- Independently developed application services to enable automated, efficient and reliable financial reporting.
- Evaluated business processes and requirements and implemented OAuth security and compliance features.
- Automated analytical reports and survey templates for improving business logic boosted domestic revenue by 13%.
- Implemented optimizing performance strategies like Optimize images, Limit the number of HTTP requests, and Minify CSS and JavaScript files improving website efficiency by 45%.
- Technologies used – JavaScript, React.js, Smarty template, PHP, Design patterns and Restful Webservices.

Senior Software Engineer **Byte Bonding** **Jabalpur, MP, IN** **11/2018 – 02/2021**

Project: - Internet of Things (IoT) Web Application

- Led the creation of an IoT Web Application, utilizing tech stacks like OOP, PHP, JavaScript, MySQL, Restful and AWS.
- Designed and developed a responsive Admin dashboard that provides a rich visual summary of daily user purchase patterns powered by Charts. Used by the stakeholders in the decision-making process resulting in a 25% boost in conversion rates.
- Integrated multiple third-party APIs like AWS (S3, SES, EC2 and CloudFront), Facebook and Apple login.

Software engineer **Aadishesh** **Jabalpur, MP, IN** **04/2015 – 10/2018**

Project: - Web Application Admin Panel

- Developed a comprehensive Admin Panel using PHP, JavaScript, MySQL, and Ajax for Bulk SMS system.
- Enabled real-time data management, facilitating efficient invoice and inventory handling.

Web Developer

Comptel System

Jabalpur, MP, IN

02/2012 – 03/2015

Project: - Online publisher website

- Developed an efficient front and back-end website (Core PHP, HTML, JavaScript and CSS) for a Publishing House.
- Created responsive web pages and optimized applications for maximum speed.

Education

Master of Computer Application (MCA)

R.G.P.V. Bhopal

07/2008 – 06/2011

- Specialization in OOP, DBMS, DSA & Web Technologies, Computer Science and SDLC.

Bachelor of Science (BSc)

R.D.V.V. Jabalpur

07/2004 – 06/2007

- Majored in Mathematics, Physics, and Military Science.

Declaration: I now declare that all the details furnished above are true to the best of my knowledge and belief.
