

PROFESSIONAL SUMMARY

Certified Java Professional with exact 3 years of experience in core and advanced Java, MySQL, and its related frameworks. Proven communicator, committed to surpassing project goals and client expectations. Successfully orchestrated projects like Student ERP Portal and Airline Reservation System, leveraging **related technologies of Java and its frameworks**. Enhanced efficiency and elevated customer experiences, driving a 30% conversion rate increase. **Ready to deliver impactful solutions for your organization's success.**

SKILLS AND ACCOMPLISHMENTS

- **Core Java:** Strong grasp of *object-oriented programming, methods and functions, exceptional handling, arrays and collections, string manipulation.*
- **Advanced Java:** Knowledge of *Servlets, JSP, JDBC, Java2E.*
- **Java Frameworks:** Familiarity with *Spring and Hibernate.*
- **Database:** Proficient in *SQL queries, database design and MySQL integration.*
- **Web Development:** Understanding of *HTML, CSS, JavaScript, and Bootstrap.*
- **Agile Methodology:** Experience with *Scrum and Agile development.*
- **Testing & Debugging:** Skilled in unit testing, debugging, and code quality.
- **Problem Solving:** Strong analytical skills for resolving complex technical challenges.
- **Communication:** Effective collaboration and communication with teams, stakeholders, and clients.
- **Continuous Learning:** Proactively staying updated with emerging technologies and industry trends.
- Mentored & assisted 3 members frontend team on application building, highlighting strong problem-solving skills and technical expertise.
- Recognized as the Employee of the Month for exceptional problem-solving skills and dedication to delivering high-quality code under tight deadlines.
- Recognized for mentoring junior developers, leading to their successful transition into more complex projects and increased team performance.

WORK EXPERIENCE

SOFTWARE DEVELOPER | WEBCURE, Kanpur
(Java Full Stack Developer)

(07/2020) – (07/2023)

Project1 | Online Library Management System

Tech Stack:

Front-End: HTML, CSS, JavaScript, Bootstrap

Back-End: Java Servlets, Java Server Pages (JSP), JavaBeans

Database: MySQL

Database Connectivity: JDBC

Front-End Interaction: AJAX

IDE: Eclipse

Deployment: Apache Tomcat

Developed a web-based library management system using Java, JSP, Servlets, HTML, CSS, and MySQL. Led front-end UI design with Bootstrap, implemented dynamic interactions with JavaScript, and utilized AJAX for real-time search feedback. Designed Servlets for user authentication, registration, and book management, ensuring smooth MVC architecture. Leveraged JDBC for database connectivity, optimizing data storage and retrieval. Implemented secure user authentication, conducted testing, and documented technical specifications.

Responsibilities:

- Led the development of a web-based library management system to automate book cataloging, borrowing, and returning processes.
- Designed and developed the front-end user interface using HTML, CSS, and Bootstrap to ensure an intuitive and responsive user experience.
- Implemented dynamic front-end interactions using JavaScript and AJAX to provide real-time feedback to users during search and book reservation.
- Created Servlets to handle user authentication, registration, and book-related requests, following MVC (Model-View-Controller) architecture.
- Developed JSP pages for rendering dynamic content and integrating it with the back-end using JSTL (Java Server Pages Standard Tag Library).
- Established a connection to the MySQL database using JDBC to store and retrieve book records, user information, and borrowing history.
- Designed and implemented the database schema to ensure data integrity and efficient querying.
- Implemented user authentication and authorization using session management and secure password hashing techniques..
- Conducted comprehensive testing, including unit testing of Servlets and front-end interactions, to identify and fix bugs.
- Documented the project's technical specifications, including the database schema, API endpoints, and deployment instructions.
- Achieved an on-time delivery rate of 95% by utilizing Agile methodologies and delivering software modules within tight deadlines.

EDUCATION

BTech (Bachelor of Technology) in Computer Science

Kanpur Institute of Technology, Kanpur

Cumulative Percentage: 74.02%

Graduation Year (2018)

12th (Intermediate)

Vivekanand Shishu Kunj Sr. Sec. School, Ambedkar Nagar

Cumulative Percentage: 83.20%

Passing Year (2014)

10th (HighSchool)

Little Flower Children School, Mau

Cumulative Percentage: 74.02%

Passing Year (2012)

CERTIFICATIONS

- C & C++ Programming Language Fundamentals
