Work Experience

Software Developer

Fedo - Bengaluru, Karnataka

October 2022 to December 2022

I have completed 3month of Internship as a software developer in Fedo Banglore.

1.Project Name: Book record management Platform: Web application Language: Python

Role: Software developer Team size: Individual

Description: A book record management project is basically used to maintain a record of books. We can perform CRUD (Create, Read, Update, and Delete) operation on it. Also we can search the book records. The Book record management project gives 360 degree view to the user. This project is useful in the library management system.

2.Project Name: Temperature converter Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: A temperature converter helps to convert the temperature between Fahrenheit and Celsius scale and vise versa. Fahrenheit and Celsius are the units to measure the temperature.

3.Project Name: Word counter Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: The word count is the number of words in a document or passage of text. Word count is commonly used by translators to determine the price of a translation job. Word counts may also be used to calculate measures of readability and to measure typing and reading speeds (usually in words per minute).

4.Project Name: Background switcher Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: Background switcher enables to change background color of web page with an ease. There are color pickers on a web page, when user clicks on any of them, then the resultant color will appear in the background of the web page. So the look and feel of the webpage gets changed and website looks attractive.

5.Project Name: Sticky menu bar Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: Sticky menu bar is a modern site navigation design concept to improve the navigation experience on long web page. A sticky header navigation system will be always fixed on the top, no matter how the user scrolls down or up the web page.

6.Project Name: Form validation Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: Forms are used in WebPages for the user to enter their required details that further send it to the server for processing. The data entered into a form needs to be in the right format and certain fields needs to be filled in order to effectively use the submitted form. Username, password, contact information are some details that are mandatory in forms and thus needs to be provided by user, in this project JavaScript is used to validate the form.

7.Project Name: Image slider Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: Image sliders (also known as image carousels or slideshows) can be a convenient way to display multiple images, videos, or graphics on a website. One clear advantage of using a slider is that website owners can place all their important content in a visually appealing and interactive slideshow at the top of the page before their main content

8.Project Name: Stopwatch Platform: Web application Language: HTML, CSS, JavaScript

Role: Software developer Team size: Individual

Description: The online stopwatch counts the time to the millisecond, seconds and minutes, that passes after user click the "Start" button. It allows user to add laps. If user closes the stopwatch, the value and laps will be automatically saved. Click the "Start" or "Stop" buttons to start or stop the stopwatch and "Reset" button to reset the stopwatch.

Education

BE in MECH

Department of Pre University

2019

Shaikh College

Skills / IT Skills

- HTML
- Css
- Javascript
- Bootstrap
- Angularjs
- Python
- Django
- Rest API

Languages

- English - Beginner
- Hindi - Fluent
- Marathi - Native
- Kannada - Beginner
