

Pavan Nanjundaiah

(PYTHON Developer)

• (91) 8660675498 • pavannanjundaiah1299@gmail.com

» Summary

Python Developer and Machine learning engineer with passion for leveraging data-driven solutions to solve complex problems. Seeking a challenging role that allows me to apply my expertise in machine learning algorithms, data analysis, and programming to develop innovative solutions. Dedicated to continuous learning and staying updated with the latest advancements in AI and ML along with Flask and Django framework to contribute effectively to a progressive and dynamic team.

» Professional Summary

- Machine Learning Engineer and a Python developer with 3+ years of Experience in developing and building responsive web, standalone, ML applications for various industries.
 - Working experience in Agile Software Development Process.
 - Working experience on Data Structures with Python.
 - Working experience on AI based Chatbot for a Medical Company.
 - Worked on project Ecommerce, with providing full stack development.
 - Rich experience in Designing and Programming in large web-based applications.
 - Handled client-side and server-side operations in web development.
 - Developed an effective database system according to customer's needs and specifications.
 - Experienced in using Python **tools** for Code review and Unit testing.
 - Worked with collections like **List, Set, Tuple, Dictionary and Strings in PYTHON**.
 - Worked on Object Notations like **JSON & PICKLE in PYTHON**.
 - Worked with **PYTHON Version 2.7+**.
 - Worked with **Iterators, Decorators and Generators in PYTHON**.
 - Worked with **Lambda Function and Functional Programming**.
 - Expertise in using **Eclipse with Pydev plugin and proficiency** in using **Pycharm**.
 - Experienced in **Agile Scrum** and **Waterflow** methodology.
 - Trained on **Agile Delivery** by **Accenture**.
 - Experienced in **effective** web service test case design, development and execution.
 - Hands on experience in **Automation Testing** using **ROBOT FRAMEWORK** with **Python-Selenium**.
 - Hands on experience in **Django** and **Flask Framework**.
 - Experienced in **effective** design, development, code review and deployment.
 - Experienced in Technical documentation, providing analysis, handling **client communications** and gathering user requirements.
 - Good knowledge on Software Development Cycle ,Testing Life Cycle and defect Life cycle.
-

» Technical Skills

Operating Systems : Windows Vista/7/8.1/10, LINUX.

Languages : C, C++, Python, Java, ML, AI

Database : MySQL, MongoDB, MS-SQL

Frameworks: Django, Flask, JSP

Designing Languages: HTML, CSS, JavaScript

» Work Experience

Accenture Solutions PVT. LTD. (August 2021 - 2023)

Worked as Python Developer

Slyaka PVT.LTD (May 2023 - Till date)

Worked as Senior Software developer

» Certifications

- Python Programming from Qspiders
- AWS, AI from CADD Centre
- Python 10 Certified by Cognitive Class.ai

» Trainings

- Python Programming by Qspiders
- Agile Delivery by Accenture
- Selenium by Qspiders
- Web-services by Smartbear

» Education

KS Institute of technology

B. E - Electronics and Telecommunication

Aggregate - 73.23%

» Projects

Project Name: Seat Craft

Domain: Django Application

Project Description: The Seat Craft application for Seat Allocation System is a web application built on the Django framework, designed to streamline the student registration process and efficiently manage seat allocations within the study center. This system aims to provide a seamless experience for students seeking admission to the study center by allowing them to register, choose their preferred seats, and receive timely reminders for seat availability.

Technologies: Python, Django, Postgre SQL, HTML, CSS, JavaScript

Role / Responsibility: As a backend developer, I am entrusted with a range of critical responsibilities aimed at ensuring the robust functionality and optimal performance of the server-side components of web applications. My roles encompass various aspects of backend development, contributing to the seamless integration and operation of the entire system.

Project-2

Project Name: Medical Chatbot

Domain: Artificial Intelligence

Project Description : As a developer for a pharmacy company, my role was crucial in the development of a cutting-edge Medical Chatbot powered by Artificial Intelligence (AI). This project aimed to enhance the company's customer service capabilities by providing an automated platform for addressing medical-related queries and assisting customers with their medication-related concerns.

Technologies: Python, Flask, Jupyter Notebook, HTML, CSS, JavaScript, MySQL.

Role / Responsibility: Collaborated with cross-functional teams, including pharmacists, UX designers, and business analysts, to gather requirements and understand the specific needs of the pharmacy company. Developed the architecture and design of the Medical Chatbot, considering scalability, performance, and security. Utilized natural language processing (NLP) techniques, machine learning algorithms, and deep learning models to enable the Chatbot to understand and respond accurately to user queries.

Project-3

Project Name: AURA Clothing Store

Domain: Retail/Ecommerce

Project Description: A shopping cart on an online retailer's site is a piece of software that facilitates the purchase of a product or service. It accepts the customer's payment and organizes the distribution of that information to the merchant, payment processor and other parties.

Technologies: Python , Django, HTML, CSS, Web API, JavaScript, Razorpay

Role / Responsibility : Worked with designers, product managers and other developers to achieve design goals. Identified web-based user interactions and developed highly responsive user interface components via Django concepts Proficient in browser rendering behavior and performance Ensured the technical feasibility of UI/UX design Proficient in using code versioning tool – git · Assured that all the user input is validated before submitting to backend services Troubleshoot interface software and debugged application codes to improve functionality and performance. · Part of Daily standup and technical meetings with client.

Major Activities:

- Identified the flow of interaction between NB and SB application servers as the environment was new to the team.
- Worked Extensively in TR069 environment (CPE device management portal). Identified mapping of backend server configurations to GUI using interface methods.
- Design and implement web-service APIs based on the mapping documents & requirements
- Worked on provisioning WIFI and Internet gateway devices in TR069 environment
- Requirement Analysis based on developing APIs for CPE device (TR069 protocol – both SOAP and REST API).
- Provided solutions and immediate fix for the issues identified with SOAP APIs.
- Involved in migration of APIs from WEBNMS and Edge health (Java) to ACS (python).
- Worked on using best python libraries (Pysnmp, Netsnmp , easysnmp and fastsnmp) which takes less polling time and measured the performance.
- Worked on installing AXESS set up on Development node.
- Successfully deployed code changes in different environment and regional pollers as a part of hot fix and official deployment.
- End point Validation of data from Web service response and providing the information to testing team to validate further.
- Assist the Testing team Members in carrying out the testing by providing required data.
- Contributed as a POC for DFS application and maintained all activities related to DFS, BSW and CRP application.
- Good Exposure on both AD and AM process.

RESPONSIBILITIES:

- Responsible for understanding user requirements, designing and developing the application.
- Involved in the Development of python and java applications.
- Involved in Front-end designing and Back-end designing for single-page web Applications
- Client Projects were completed on time and within a stipulated budget.

STRENGTH INCLUDES:

- Adaptability and Industrious nature
- Good analytical and good programming skills
- Intended to work as a team player with Result oriented approach.

DECLARATION:

I hereby declare that the particulars of information and facts stated above are true and complete to the best of my knowledge and belief.

(PAVAN KUMAR N)
