Automation Test Engineer.

An experienced Automation Tester with rich experience leveraging Selenium WebDriver to develop and maintain automated test scripts and facilitate quality assurance for web applications. Restructured and improved the test automation framework, resulting in a 20% reduction in time spent conducting tests, and consolidated automated tests, reducing time spent on manual tests by 60%. Regularly communicated with developers, executed tests, developed test plans, and standardizing test cases to ensure product quality and timely product delivery."

WORK EXPERIENCE

Brainvire Infotech Iic (Software Test Engineer - 12/2021 - Present)

Founded in 2000, Brainvire was not a typical IT firm but rather a haven of passionate and enthusiastic individuals with innovative ideas and skill sets. Rather than incremental advancements, the technology requires revolutionary changes. Through this transformation, we want to evolve the needs of people and commerce. Within a few years of establishment, the CEO's unstoppable entrepreneurial spirit led to undiscovered markets and regions such as outsourcing services in the United States. We are thorough professionals when it comes to crafting solutions, but we also understand the importance of business and community at large.

EDUCATION

Bachelor of Engineering in Electrical & Electronics Engineer.

SG Balekundri Institute of Technology Belagavi • Belagavi • 07/2014 - 07/2018

CERTIFICATIONS

Software Testing Course

Q Spiders • 08/2021 - 12/2021

PROJECTS

LinkBox (Web Manual + Mobile Responsive)

Educational • 01/2022 - 10/2023

It is a Collaborative Document Management System, where members can communicate via Chat to review shared Documents and add comments. Members can add the walkthrough by uploading Audio & video recordings or create their recordings using the Linkbox Application.

RASEP (Web Manual +Web Automation + Mobile APP)

LOGISTICS • 01/2023 – 08/2023

The RABAN AL-SAFINA platform will be a consignment shipment management module for company and admin users. Company users can create transportation quote requests from this platform by adding various details.

Company users can review the vendor's details for the respective created request and choose the quote to confirm with whom they want to proceed.

Admin users will play a significant role as they can add companies that want to help with the shipment.

Admin users can also manage company users and request quotes, bookings, and status for land transportation.

Esther's (Web Manual +Web Automation + Mobile Responsive)

E-commerce • 12/2022 – 12/2023

Building the future of shopping through creator-led commerce.

Get your creator to shop where all your outfits, styles, and recommendations are easily made shoppable for your followers to buy. Simply upload your photos and videos, or create curated style boards, and tag them with our library of 2 000 000 + affiliate links gathered from all large networks. Share it with your followers to save time and earn money while enjoying happy followers.

Bay Alarm Medical (Mobile APP)

Medical • 07/2023 – 11/2023

It is designed to get loved one's medical help promptly, specifically those who are at falling risk.

At Bay Alarm Medical you can expect available emergency help 24 hours per day, 7 days a week, 365 days a year. In the event of an emergency, simply press your help button. This will initiate a call to Bay Alarm Medical's USA-based call center. An operator will speak to you through our two-way speaker in the main device, assess your situation, and then make the appropriate calls to get you help. They will either contact your local emergency personnel or your emergency contacts, depending on what you set up on the Customer Information Form that comes with your order.
