

Prakash Bohara

Total Exp: 2 Years

Relevant Exp: 2 Years

Ph: (+91) - 8956516891

Email: boharap475@gmail.com

Professional Summary:

Experienced Developer with a strong background in information & technology. Skilled in Java/J2EE, Unix/Linux, Azure, AWS, Jenkins, Docker, Kubernetes, Ansible, and Terraform. Passionate about automation and infrastructure management, seeking a challenging role as DevOps.

Technical Skills:

Programming Languages: Core Java , J2EE , Spring , Spring Boot , Shell Scripting

Databases: MySQL

CI(Continuous integration)/CD(Continuous Delivery,Continuous deployment): Jenkins

Build Tool: Maven

Container Management/Orchestration Tool: Docker, Kubernetes (k8's)

Source Control Management Tool: Git/GitHub

Infrastructure as Code(IAC): Terraform

Configuration Management Tool: Ansible

Cloud Platforms: AWS Cloud, Azure Cloud

Operating Systems: Windows, Linux/Unix

Monitoring Tools : Prometheus & Grafana

Work Experience**Software Engineer | Velankani Software Pvt Ltd (VCTI) -X- Cisco | Oct 2022 - Present.**

- Collaborated with the NBI team to resolve bugs in Cisco EPNM-NBI provisioning & network configuration modules.
- Work on Rest API endpoints and payloads, ensuring compatibility with the Cisco EPNM-NBI system.
- Worked on Rest API endpoints and payloads for Cisco EPNM-NBI system.
- Conducted testing and debugging, enhancing system stability and security.
- Patched and tested bugs in Kubernetes-based Cisco EPNM-NBI microservices.
- Contributed to the Microservice Architecture Release on Cisco EPNM 7.0 LA using Kubernetes.

Analyst (Models Development) | TransUnion Global Technology Center LLP | June 2021 – Oct 2022

- Developed data processing applications using Ab-initio ETL technology.
- Managed data extraction, cleansing, and validation on UNIX platform.
- Created customized Transunion models and deployed manifest files with Ansible Tower.
- Conducted Big Data analysis and implemented end-to-end processing solutions.
- Facilitated cross-functional communications for high-risk executions.

DevOps RealTime Projects:

- **Spring Boot CRUD application with MySQL on Kubernetes using YAML configurations (July 23 - Present)**
 - Orchestrated Spring Boot CRUD app deployment on Kubernetes with MySQL using YAML.
 - Managed secrets with Kubernetes for sensitive data.
 - Monitored and managed replicas using Kubernetes dashboard.

- **End-to-End DevOps Project : Linux, AWS, Docker, Kubernetes, Ansible, GitHub, Jenkins, and Nagios (July 23 - Present)**
 - Set up and configured Linux servers.
 - Utilized AWS for cloud-based resources.
 - Containerized applications with Docker.
 - Orchestrated containerized deployments with Kubernetes.
 - Automated configuration management with Ansible.
 - Implemented CI/CD pipelines with Jenkins.
 - Established monitoring and alerting with Nagios.
- **AWS Complete CI/CD Python Flask Application Project (August 23 - Present)**
 - Developed a Python Flask web application.
 - Integrated the project with AWS CodeCommit for source control.
 - Established a CI/CD pipeline using AWS CodePipeline.
 - Utilized AWS CodeBuild and CodeDeploy for automated building and deployment.
 - Ensured infrastructure provisioning with AWS CloudFormation.
 - Emphasized security through IAM and scalability for varying workloads.
- **Kubernetes(k8's) Cluster Monitoring Using Prometheus & Grafana on Local Environment using minikube and Helm (August 23 - Present)**
 - Established a Minikube-based Kubernetes cluster.
 - Deployed Prometheus and Grafana using Helm charts.
 - Configured custom alerts for issue notifications.

Certifications:

- Docker & Kubernetes: The Practical Guide [2023 Edition] - Udemy
- The AWS Course - Eduonix Learning Solutions Pvt Ltd
- DevOps Beginners to Advance with Projects - Udemy
- Kubernetes for the Absolute Beginners - Hands-on from KodeKloud

Awards:

- Quarterly Award at Transunion for best-performing employee - Q1 2022

Education:

- Post Graduation Diploma in Computer Technology - Institute For Advanced Computing and Software Development, Pune (Sept 2020 - May 2021)
- Bachelor's in Mechanical Engineering - MET's Institute of Engineering, Nashik (June 2014 - August 2018)

Declaration:

- **I hereby declare that the above cited information is true to the best of my knowledge and belief.**

Place: Nashik
