Arbonne

- Handling requirements/issues raised in JIRA tool on daily basis.
- Testing and analyzing the edge cases and finding the defects in accordance with the Acceptance Criteria.
- Testing the forms based on the client requirement and technical aspects.
- Performing Automation testing (Running sanity, Regression, Extended sanity scripts) finding out the defects which are critical with respect to requirements and working on story test scripting.
- Learning Performance testing.

HPE - Hewlett Packard Enterprise System

- Understanding business requirements. Updating Framework functions when needed.
- Developed the Automation test Scripts and Execution of test scripts using selenium.
- Performed Functional and System testing .
- Reporting and tracking the bugs in jira and also spira.
- Reviewing the test Reports and Preparing Test Summary Report.
- Performed functional, compatibility and regression testing, sanity testing.
- Participated in identifying the test scenarios and designing the test cases.
- Prepared and Executed the test cases as per the System Requirements.
- Automating of all the static, dynamic objects in page ex: links, images, test, date and images with link.
- Performed regression testing on the modified Buildarious black box testing methodologies like functional testing and Regression testing.
- Involved in automation testing .
- Involved in test scripts preparation and execution within the framework using selenium WebDriver.

Crime Tackle Website

HTML | PHP | MySQL

- Developed a web-based platform utilizing HTML, PHP, and MySQL to enable users to report crimes happening in their households.
- Implemented a user-friendly interface for capturing and uploading pictures of the crime scene directly from the website.
- Incorporated a secure authentication system to ensure that only authorized users can access the reporting functionality.
- Designed a MySQL database to store crime reports, including media files, timestamps, and relevant user information.
- Implemented server-side validation to ensure the accuracy and integrity of the uploaded media files.
- Employed PHP scripting to handle the backend logic, process the reported crime data, and store it in the MySQL database.
- Provided a search and filtering functionality within the website to facilitate efficient retrieval and analysis of crime data by the users of the site.

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- **2019:** Attended the National Quiz competition Held by KLE Society at Belagavi.
- **2018:** Successfully coordinated and executed Tappassu, a state-level event at our college, attracting participation from 75 colleges across Karnataka, ensuring seamless organization and delivering a memorable experience for all attendees.
- **2015:** Achieved a commendable 2nd place in the district-level volleyball competition during 10th grade, demonstrating exceptional teamwork, skill, and sportsmanship, contributing to the success of the team.
