# Prasad M Patil

## INTRANSHIP

**Java Full Stack Development, Q-Spiders** | Bangalore, India  
March 2022-May 2022 And August 2022-October 2022

### Key Roles and Responsibilities

- Managed both back-end and front-end aspects of development process.
- Completed code debugging and implemented fixes to resolve the problem based on priority system.
- Produced high-quality code artifact that confirmed to standards and best practices.
- Analyzed code and corrected errors to optimize output.
- Apply Object Oriented development of developing the Applications.

## CAREER OBJECTIVES

Curious and diligent to learn about the different new technology that continue to amaze the world. To expertise myself in this field to contribute my knowledge for new emerging technology.

## WEBSITES

<https://www.linkedin.com/in/prasad-patil01>

## SKILLS

- C Programming
- Java
- HTML
- CSS
- MySQL
- Linux Environments
- Windows
- Eclipse
- MySQL Workbench

## HOBBIES

- Puzzle Solving
- Playing Games
- Travelling

## EDUCATION DETAILS

**Bachelor of Engineering** | Information Science And Engineering  
May 2023

Alva's Institute of Engineering and Technology, Moodbidire, India  
8.73/10.00 CGPA

**Pre University Course** | PCMB

April 2019

Konnur Science P U College, Yallatti.

**High School Education** | SSLC

May 2017

K.S.S. High School, Jugul, Belagavi.

## LANGUAGES

- English
- Hindi
- Kannada
- Marathi

## CERTIFICATIONS

- Programming in Java NPTEL
- Programming using Java Infosys spring board
- C++ Training
- Web development using HTML,CSS

---

## QUALITIES

- Be a Team Worker
- Flexible to Work
- Hardworking
- Time Management
- Problem Solving

---

## ACTIVITIES AND PROJECTS

### 1. Gym Management System

The Main objective is to create a platform where it helps you to keep track of the records of your members and their memberships.

### 2. Traffic Lane Detection using Machine Learning

Traffic lane detection using machine learning is a computer vision technique that utilizes the YOLO algorithm, inverse perspective mapping, and sliding window approach to accurately identify and track the lanes on a road.
