

Prasad Shinde

Machine Learning Engineer at ZeroT Energy Pvt Ltd.

Pune, Maharashtra

prasadshinde0555669_cd5@indeedemail.com

+9177218 99203

With 2 years of experience in data science, I offer expertise in Python, PL/SQL, and Scala. My skills encompass Data Science, Machine Learning, JAR file creation, and PMML-based deployment. I excel in data manipulation, large dataset handling, test strategy, and problem-solving. My adaptability, strong communication, and teamwork make me a valuable asset. Additionally, I have a keen interest in Actimize Watch solutions, finance, and Agile methodologies.

Personal Details

Date of Birth: 1999-06-01

Eligible to work in: India

Highest Career Level: 2-5 years experience

Industry: Banking & Finance, Healthcare, IT Operations & Helpdesk, IT-Hardware & Networking, Oil & Gas, Energy, Power, Infrastructure

Total years of experience: 2

Work Experience

Machine Learning Engineer

ZeroTEnergy - Remote

July 2022 to May 2023

Working on ML architecture, deployment, and some level of software development/scripting. Collecting and cleaning the data while working on ML. Develop ML and DL models, test the Azure functions, and Deployment on Azure.

Tools & Technologies - Python, MySQL, VS code, Azure, GCP, Docker, Blockchain, etc.

Jr. Data Scientist

OM SOFTWARE INTERNET SOLUTION PVT.LTD - Pune, Maharashtra

January 2022 to March 2022

Data Cleaning, Data preprocessing, Data Visualization, Feature engineering, Web Scraping, and Chatbot Development.

Tools & Technologies - Python, MySQL, Web Scraping, Chatbot, Azure, etc.

Data Analyst Intern

Lejhro - Bengaluru, Karnataka

October 2021 to December 2021

Write code to collect, crunch, and analyze data from various internal and external sources. Build machine and tune learning models using Python. Work in an agile environment as part of an interdisciplinary development team.

Tools & Technologies - Python, Data Visualization, Machine Learning, Data Cleaning, Data Analysis, etc.

Data Scientist Intern

Maxgen Technology - Pune, Maharashtra

May 2021 to October 2021

Identify valuable data sources and automate collection processes. Undertake to preprocess of structured and unstructured data. Analyze large amounts of information to discover trends and patterns. Build predictive models and machine-learning algorithms.

Tools & Technologies - Python, MySQL, Tableau, Power BI, Data Cleaning, etc.

Education

Master's degree in Data Science

Chandigarh University - Mohali, Punjab

July 2023 to Present

Bachelor's degree in Accounting & Statistics

Solapur University - Solapur, Maharashtra

June 2017 to May 2020

Skills / IT Skills

- Python (3 years)
- MYSQL (2 years)
- Tableau (1 year)
- Data analysis skills (2 years)
- Power BI (1 year)
- Deep learning (1 year)
- Machine Learning (2 years)
- Azure (1 year)
- Google Cloud Platform (GCP) (1 year)
- Chatbots (1 year)
- Web Scraping (2 years)
- AWS (1 year)
- Statistical Modeling (2 years)
- Statistical analysis (2 years)
- Time Series Forecasting (1 year)
- Deployment (1 year)
- Blockchain (Less than 1 year)
- Data visualization (2 years)
- Microsoft Excel (1 year)
- TensorFlow (1 year)
- Keras (1 year)

- PyTorch (1 year)

Languages

- Marathi - Expert
- Hindi - Expert
- English - Fluent

Online Profile

<https://www.linkedin.com/in/prasad-shinde-30b576209/>

Awards / Achievements

Economics and Statistics

May 2019

First Rank in Economics and Statistics (2nd year)

Certifications and Licenses

Data Science Training

June 2021 to Present

Tableau Training

June 2021 to Present

Machine Learning

October 2021 to Present

Projects / Papers Presented

MIMII Dataset: Sound Dataset for Malfunctioning Industrial Machine Investigation and Inspection

September 2022

Provide a comprehensive dataset, called the MIMII dataset, consisting of normal and anomalous sounds from various types of industrial machines, along with background noise. The dataset serves as a benchmark for evaluating sound-based machine fault diagnosis techniques, including unsupervised anomaly detection, transfer learning, and noise robustness.

Oil Storage Tank Satellite imagery Data

December 2022

Use satellite imagery to estimate the volume of oil stored in floating head tanks, providing valuable information on oil reserves and global energy demand while compensating for the lack of transparency in oil storage data.
