Career Objective

To be part of an Organization of Global presence, consciously & constantly strive with commitment and dedicated diligence for personal as well as for organizational excellence.

Technical Skills

- ✓ Having 4+ years of experience in IT as an Informatica Developer.
- ✓ Experience in processing relational database, flat file formats.
- ✓ Have the capability to understand the requirements, mappings and preparing technical design Documents.
- ✓ Comprehensive knowledge of SQL.
- ✓ Developed mappings, sessions, and workflows for the new ETL process followed with Quality standards.
- ✓ Performed Unit Test Plan and integration testing.
- ✓ Data modeling experience using Dimensional Data modeling, Star Schema & Snowflake Schema modeling, and Fact & Dimensions tables.
- ✓ Performed Performance tuning of end-to-end integration processes within Informatica workflow, or in the source/target database endpoints as needed.
- ✓ Quick learner and Excellent Team player, ability to meet tight deadlines and work under pressure.

Educational Qualification

- BE in Electronics Engineering from Mumbai University, 2015

Skills

Expertise	Informatica, SQL, Data warehouse
Database and Skills	Oracle (10g), SQL, PL/SQL
Development Tools	Informatica Power Center 9.x
Operating Systems	Windows, Unix
Web Technologies	XML

Work Experience

Project 1: Hire It Solutions Private Limited, Client: Fintellix Indian Private Limited

Duration	Dec 2022 to till date
ETL Tool	Informatica Power Center 9.x
Environment	Development (DWH)
Database	Oracle 10g

Project Description:

Fintellix is a leading provider of data management platform, regulatory technology, supervisory technology, compliance management, risk management and analytical solutions to the banking and financial services industry. It is the team of expertise that solve complex data management, risk, regulatory and business issues in banks and financial services organizations.

Contribution / Highlights:

- Working on problem resolution, identifying the root causes, and taking preventive maintenance.
- Provide support in production environment for New Solution Implementations and post enhancement deployments.
- Knowledge of Query Optimization & Executing Plans with support team.
- Coordinating with different support teams effectively to solve issues and strong commitment to get job done under pressure.
- Attended to Informatica job failures by analyzing the root cause, resolving the failure using standard documented process.
- Worked on long running jobs and implemented performance tuning solutions at Database level, SQL level.
- Implemented SCD Type 2 methodologies by versioning, by date, and flag.
- Worked on Production tickets to understand issues and resolved with middleware & product team & support team.
- Implemented new project to remove dependency of server through ETL & database coding at Metadata level & users can download reports through Front End Application.
- Wide experience in working on various source schemas such as Flat Files, Relational tables.

Project 2: Delta Technologies, Client: RBI

Duration	Sept 2019 to December 2022
ETL Tool	Informatica Power Center 9.x
Environment	Development (DWH)
Database	Oracle 10g

Project Description:

The main purpose of the RBI is to conduct consolidated supervision of the financial sector in India, which is made up of commercial banks, financial institutions, and non-banking finance firms. Initiatives adopted by the RBI include restructuring bank inspections, introducing off-site surveillance of banks and financial institutions, and strengthening the role of auditors. The RBI acts as a regulator and supervisor of the overall financial system. This injects public confidence into the national financial system, protects interest rates, and provides positive banking alternatives to the public.

Contribution / Highlights:

- Involved in fetching data from XBRL creating Item master with Master tables & Fact tables.
- Involved in the SDLC process beginning with the design of dimensional modeling in building the data warehouse.
- To analyze source system data and prepare low-level documentation to ensure successful data loading into different targets from various source systems like Oracle Database, Flat files into the Staging table and then to the target database Oracle.
- Studied functional documents for thorough understanding of client's need.
- To improve the session performance, various performance bottlenecks are identified and eliminated. The identification is based on thread statistics.
- Used Informatica features to implement mapping like SCD Type 1, 2 and also CDC.
- Created indexes on tables to improve the performance by eliminating the full table scans and views for hiding the actual tables and to eliminate the complexity of the large queries
- Used Informatica best practices for performance improvement and also used concept of partitioning.
- Ability to work in a group or team environment.

IT Coaching in class

Duration: Nov 2018 to July 2019

Project 3: Inspirisys; Client: Saint-Gobain Indec

Duration Nov 2015 to Nov 2018
Designation Customer Support Engineer (Technical)

Contribution / Highlights:

- Installation and troubleshooting of windows-XP, Vista, Win7, Win8, 8.1, Operating systems.
- Installation of Linux OS systems to migrate infrastructure setup
- Troubleshoot over network like crimping, punching as well wireless Network Configuration.
- Work under Domain as well knows in Workgroup network.
- All kind of hardware related issue.
- Installing & trouble shooting of operating systems & application software's
- Installing antivirus software's and Updates.
- Managing Microsoft Bit Locker Administration and Monitoring
- Managing PKI Digital certificate for Servers, network devices and users
- Managing Secure file transfer service for internal and external users and monitoring file storage limit and users license availability

- Strong Authentication support. Assigning soft token, RSA token creation, deletion and console access permission
- Troubleshoot over windows 10 certificate issues for Wi-Fi and VPN access
- Vendor co-ordination for software support.
- Leading first level of network engineer team to solve network issues.
- Maintaining day to day activities like checking for necessary disk space, Memory usage, Performance & Health checks using monitoring tools.

Personal Details:

Name	Pratiksha Saurabh Sutar
Permanent Address	C-2, Plot No: 59, Shramik Co-op Hsg Society, Gorai-1, Borivali (West), Mumbai- 400092
Mobile	+91- 8976332638
Email	salunkepratiksha@gmail.com
Birth Date	21/11/1992
Gender	Female
Marital Status	Married
Languages Known	English, Hindi, Marathi, Gujrati
