EDUCATION

DEGREE EDUCATION

B. Tech, IT-(2015) |IFET College of Engineering

HIGHER SECONDARY

JUNE 2010 – APRIL 2011|
Ramakrishna Vidyalaya Matric Higher Secondary School.

HIGH SCHOOL

JUNE 2009 – APRIL 2010|
Ramakrishna Vidyalaya Matric Higher Secondary School.

SKILLS: TECHNICAL

- **Database:** Oracle(18C) SQL server, Snowflake,
- **Language:** SQL, Unix
- **ETL Tools:** JIRA, SSIS Putty, Winscp.
- **Operating Systems:** Windows family, Unix.

CAREER OBJECTIVE

Seeking a challenging position in Software Testing and Quality Management within a dynamic company, where my acquired skills and expertise will be effectively utilized to drive continuous growth, innovation, and advancement."

PROFESSIONAL ACCOMPLISHMENTS

- With 2+ years of professional experience, I am actively seeking a challenging role in Software Testing and Quality Management. My expertise encompasses ETL testing, Manual testing, and database testing, supported by proficiency in Oracle SQL, UNIX, SSIS, and comprehensive ETL concepts. I am eager to leverage my skills and experience to drive quality assurance and contribute to the growth and success of a forward-thinking company."
- Assessed project requirements and furnished estimates of required work efforts.
- Created Test Cases based on the requirements.
- Performing system integration and functional testing consistently across project iterations and sprints.
- Highly skilled in SQL query formulation and proficient in SSIS validation techniques.
- Proven experience in utilizing databases such as Oracle and SQL.
- Experience in UNIX commands and SQL Joins, Group functions, Analytical functions and Sub queries.
- Experience in Fact table and Dimension table analysis.
- Worked in the UNIX commands like grep, awk and Find etc...
- To process the files in the Unix environment.

WORK EXPERIENCE

Company Name- Tekessence

- I served as an ETL tester and was responsible for conducting ETL testing and database testing. I leveraged my proficiency in Oracle SQL, UNIX, SSIS and ETL concepts to excel in these roles. (Aug 2021- Nov 2023)

PROJECT-1

Client: ANB Investment Bank

Domain: Investment Banking.

Environment: Oracle(18C),
Unix.

Tools: SSIS, JIRA

Role: ETL Tester

ROLES & RESPONSIBILITIES

- To create ETL test Scripts based on technical specification and source to target mapping.
- Tested SQL queries to validate the data and performance of the database.
- Creating test cases by studying the mapping documents from Source and target environment.
- Tested SQL queries to validate the data and performance of the database.
- Involved in data quality validation includes row counts check, sample data validations and entire data reconciliation.
- Verified Column mapping between Source and Target environments.
- Strong Understanding in Software Testing Life Cycle processes.
- Create documents for Bug logging, Prioritizing, Tracking and Reporting.
- Written SQL queries to execute the test cases using Sub-queries, Joins, Group and Analytical function.
- Wide experience in creating test cases for manual test execution using SQL in a database testing environment.
- Documentation & preparation of test reports, defect list, test results.
- Defects Identified in testing environment are communicated to the developers.
- Creating traceability relationship between requirements in the same module and also between different modules.
- Attended the Scrum Meeting and Update the Status for Day-to-Day activities.

DECLARATION

I hereby declare that the details furnished above are true to the best of my knowledge and belief.
