

PRIYANSHU KUMAR

Full Stack Developer

+91-7018493476 ◇ Bangalore, Karnataka, India

priyanshusingh9459@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

OBJECTIVE

Software developer with two years of experience in software development, actively seeking engaging opportunities for growth and contribution in full-time roles.

SKILLS

Technical Skills	PHP, Javascript, jQuery, C, Java, Python
Frontend Development	HTML5, CSS, React, Redux, Recharts.js, Bootstrap, Plotly.js
Backend	MySQL, Oracle Database, phpMyAdmin, Rest API, RDBMS, Postman
Tools	Visual Studio Code, Net Beans, Linux, Git lab, GitHub, Postman
Other Skills	MVC, Data Structure and Algorithms, OOPS, Agile Methodology, Scrum, VCS

EXPERIENCE

SOFTWARE ENGINEER

Accrete Globus Technology

Jul 2022 - Present

Bengaluru, India

- Spearheading the 6Orbit project, significantly contributing to Full-stack Development.
- Engineering an ERP web application, optimizing modules for various departments, and enhancing business processes.
- Conducting code reviews, providing constructive feedback for improved code quality, and implementing best practices.
- Collaborating with product managers and end-users, leading to iterative improvements based on user needs and industry trends.
- Working closely with the Agile team to ensure systematized project management and successful iterations.
- Leading training sessions for junior developers on coding standards and efficient problem-solving techniques.

TRAINEE ENGINEER

Accrete Globus Technology

Jan 2022 - Jul 2022

Bengaluru, India

- Undertaking various roles, emphasizing bug fixes, enhancements, and continuous improvements for the existing web application.
- Collaborating with the web development team to identify, troubleshoot, and resolve software issues promptly.
- Contributing to the Warehouse project by implementing innovative features that adapted inventory management and adjusted order processing for efficiency.
- Actively participating in the development of the Customer Portal, focusing on functionality improvements for adapted customer interactions and efficient communication.

PROJECTS

SALES MANAGEMENT SYSTEM: Developed an intuitive web-based Sales Management System utilizing HTML, CSS, JavaScript, jQuery, and PHP. Engineered functionalities for streamlined Sales Order processing, resulting in a 20 Percent increase in workflow efficiency. Employed AJAX for seamless data retrieval and integrated financial modules for improved accounting accuracy by 15 Percent. Utilized SQL queries for secure data handling within MySQL database via PhpMyAdmin.

FLOOD DETECTION SYSTEM: Developed a Flood Detection System utilizing C programming language to provide early warning alerts for potential flooding events. Integrated sensors and data processing algorithms to monitor water levels and analyze real-time data. Implemented predictive analytics to forecast flood occurrences, enabling timely responses from authorities and residents to mitigate risks. Contributed to disaster management efforts by designing and deploying an efficient and reliable system for flood detection and prevention.

EDUCATION

Bachelor of Technology (B.Tech), Chandigarh Engineering College, Punjab
(Electronics And Communications (7.68 CGPA))

2018 – 2022

EXTRA-CURRICULAR ACTIVITIES

- Independently developed software projects showcasing initiative, creativity, and a passion for technology.
- Completed courses, workshops, and certifications in software development and emerging technologies.
- Engagement in coding competitions, hackathons, and personal projects showcases problem-solving skills, creativity, and a passion for technology.

ACHIEVEMENTS

- Participated in “Flipkart Grid 3.0” Hackathon
- ”Cpp Training” organized by IIT Bombay.
- ”Arduino Training” organized by IIT Bombay.
- Robotic Process Automation by GUVI.
