[promitdutta2022](https://www.linkedin.com/in/promitdutta2022)

I am a highly motivated and experienced business analyst and data analyst with a passion for using data in solving problems and improving business performance. I have a proven track record of success in leading and delivering complex projects in the EdTech, HoReCa business. I am skilled in all phases of the data analysis process, from data collection and cleaning to modelling and reporting. I have hands-on experience in developing ETL workflows using Python, SQL, R, cloud platforms, etc. to provide end-to-end solutions. I am also proficient in developing visualisations using Tableau, PowerBI, Excel. My job responsibilities include regular interaction with onshore and offshore leads, key client stakeholders to understand business problems, and providing accurate, data-driven business solutions using statistical analysis, hypothesis testing and mathematical models. I am keen in understanding any business ecosystem through data so as to run an organisation efficiently and successfully in that domain. I am eager to learn more about your company and the position you are hiring for. I am available for an interview at your earliest convenience.

Education

Indian Institute of Technology, Guwahati (IIT Guwahati)

Master in Technology, Aerodynamics and Propulsion (Mechanical Engineering)

August 2017 - June 2019, Guwahati, India, GPA 7.56/10

Course includes : Advanced Engg Mathematics, Mathematical Modelling of Engineering Problems.

Final year project : Drag reduction of an airfoil at high angle of attack with the help of vortex generators

Skills

Strong analytical and business skills on *unit economics*, *supply chain* and *operation management*, *pattern and trend* recognition.

Data *visualisation* skills, data *insights*, data driven business decisions, *Root Cause Analysis*, *Tableau*, *Power BI*

Data *quality* assessment, relational databases and *SQL*, *BigQuery*, *SQLite*

Proficiency with spreadsheets like *Google Sheets*, *MS Excel*

Technical Skills: *Python*, *Pandas*, *Sklearn*, *Google Colab*, *R* and *Linear Regression*, *Logistic Regression*,

Random Forest Regression and Classification, *XGBoost Regression and Classification*

Business insights and *optimisation* processes in *QSR*, *supply chain management* and *inventory management*

Technical-fundamental analysis in the securities market

Experiences

Chilli Flakes

Volunteered Analyst

Sept 2022 - June 2023, outer-Kolkata, India

Accomplished more than 50% increase in sales on a MoM basis in a quarter through data driven *strategic marketing*, improving operations and *supply chain management* for a small *quick service restaurant* Chilli Flakes situated in a suburban town Chandernagore, West Bengal. I created and managed a point-of-sale application (POS system) and an end-to-end data analysis system which is used to carry out extensive customer outreach and marketing with the help of *google colab*, *google sheets* and *whatsapp business api*. This has helped the business to grow and gave a 100% growth within just 3 months.

BYJU'S (Think and Learn Private Limited)

Senior Associate

July 2019 - November 2022, Bengaluru, India

I worked in the backend team of Goggles project (a camera integrated search engine feature in "BYJUS the learning app") where my job was to *data validation and refinement* of the result so as to get better search results.

Our team's work has been highly effective to increase the customer satisfaction and increased the accuracy of the search result from 30% to 85%. I was also responsible for the *web content* creation and review for the *web marketing* team for physics subject matter in higher secondary level where I led a small team of six proficient content creators. I also worked in the *mobile application interface, design and testing* in the BYJU'S online live teaching platform application.

Courses & Certifications

IBM Data Science Professional Certificate

Coursera Credential ID : EXTBWHRFWR2KV,

Completed on March 2023

Python for Data Science, AI & Development, Tools for Data Science, Data Science Methodology, Databases and SQL for Data Science with Python, Data Visualization with Python, Machine Learning with Python, Data Analysis with Python

Google Data Analytics Professional Certificate

Coursera Credential ID : SFYAC6RS6ETM,

Completed on December 2022

Ask Questions to Make Data-Driven Decisions, Share Data Through the Art of Visualization, Analyze Data to Answer Questions, Data Analysis with R Programming, Prepare Data for Exploration, Process Data from Dirty to Clean

Statistics for Data Science and Business Analysis

Udemy Certificate number: UC-f32351ef-011e-4813-bc6b-2e4841ac577c

Completed on March 2023

Personal Projects

- Bankruptcy prediction of companies listed in **Taiwanese Stock Exchange** on the basis of their key financial indicators and use of machine learning algorithms (eg, Logistic Regression, Random Forest Classifier, XGBoost Classifier) to pick potentially financially stressed companies. Domain: FinTech, Finance, Securities Analysis
https://github.com/promitdutta-biz/data_analyst_projects/blob/main/company_bankruptcy_prediction_latest.ipynb
- **Hotel cancellation** prediction of the customers so as to keep optimum inventory and serve better on the basis of hotel bookings dataset. Used machine learning algorithms such as Logistic Regression, Random Forest Classifier, XGBoost Classifier to predict the potential cancellation. Domain: Tours & Travel
https://github.com/promitdutta-biz/data_analyst_projects/blob/main/Hotel_Bookings_XGBoost_Classification_new.ipynb
- Prediction of flat price on the basis of **Bengaluru House Price** dataset. Used machine learning algorithms such as multiple linear regression, random forest regression, XGBoost regressor to predict the flat price. Domain: Real Estate
https://github.com/promitdutta-biz/data_analyst_projects/blob/main/Bengaluru_Real_Estate_GH1.ipynb

Achievements and Awards

All India Rank 1549 with 99.18 percentile in GATE 2017 Mechanical Engineering,

All India Rank 1313 with 98.74 percentile in WBJEE 2011,

Achieved 100 out of 100 in Mathematics Board Exam, WBBSE 2008
