SUMMARY

Result-oriented Technology Associate with 2+ Years of hands-on experience designing, implementing, and maintaining web applications. Proficient in Java, Spring Boot and MySQL. Seeking the position of Senior Software Engineer to leverage expertise in software development and contribute to the team's success in building robust and scalable applications. Proven track record of delivering high-quality, scalable and maintainable code. Strong problem solving skills and keen eye for detail. Excellent communication and teamwork abilities.

EXPERIENCE

Technology Associate

Smalt and beryl

September 2021 - February 2024, Noida

- Full-stack Developer (Java/Front-end) contributing to scalable software solutions & RESTful APIs.
- Agile team player: troubleshooted, resolved bugs, lead the team & delivered projects on time.

PROJECTS

Qrencia

Smalt and beryl(Qrencia) • <https://www.qrencia.com/> • January 2023 - February 2024

- Designed and implemented secure and efficient RESTful APIs using Spring Boot, facilitating seamless communication between front-end and back-end systems.
- Implemented secure and efficient PhonePe payment gateway using RestTemplate.
- Created a secure authentication system using JWT in Spring Boot.
- Built a secure login system for a Spring Boot app using JWTs and Spring Security. Users log in smoothly through RESTful APIs, with access controlled according to industry best practices.

Green India Portal (GIP)

SCGJ • <https://www.scgjgip.org/ui/#/> • September 2022 - March 2023

- Build the application from scratch using AWS services for scalability, performance, and storage.
- Team lead with team size of 4-5 members and guiding new joiners.
- Demonstrated strong problem-solving skills in addressing challenges across frontend and backend development.

SEMS

SCGJ • <https://www.sems.training/#/> • March 2022 - August 2022

- SCGJ E-learning Management System. Build skills with online training & certificates.
- Developed and maintained web applications using Spring Boot and AngularJS.
- Developed an email communication system (Java Mail) using modern techniques (Java 8) that sends emails quickly and efficiently in the background, without affecting other tasks.

Rozagarsarathi

Sarthak Educational Trust • <https://rozgarsarathi.org/ui/> • November 2021 - March 2022

- As a full-stack developer (Java Spring Boot, MySQL, HTML, CSS, JavaScript, and AngularJS), I engineered an inclusive, user-friendly, robust, and scalable job portal platform.
- This platform ensures accessibility for people with disabilities, including those who use assistive technology, providing a rich user experience.

EDUCATION

Bachelor Of Engineering

Jiwaji University • Gwalior • 2019

SKILLS

- Tech Stack: Java, Spring Boot, JDBC, AWS | HTML, CSS, JavaScript, Angular Js
- Databases & Version Control: MySQL, Git & SVN
- Tools: Eclipse, Vs Code, MySQL Workbench, Postman & Jasper Studio
- Methodology: Agile
- Strengths: Problem-solving, Troubleshooting
