RAMESH P

ETL TESTER

SKILLS

Language : SQL, Unix
Database : Oracle, SQL Server, Snowflake
Operating Systems : Windows, Unix
ETL Tools : Informatica, SSIS
BI Tools : Power BI
Defect Management : JIRA
Other Tools : SQL developer, SSMS
Version Control : GIT
Scripting Language : PLSQL, Python(Basics)

EDUCATION

M.E (Industrial Engineering)
College of Engineering, Guindy
Chennai

B.E (Mechanical Engineering)
Rajiv Gandhi College of Engineering
Chennai

EXPERIENCE

ETL Tester - Jul/2019 to till date
Iways Analytics & IT Solutions, Chennai

Asst. Professor - Sep/2014 to May/2019
GKM College of Engineering, Chennai

PERSONAL INFO

Father's name: C.Perumal
Marital Status : Married
Date of Birth : 07th JUN 1987
Languages : English, Tamil

CAREER OBJECTIVE

IT Professional with 4+ years of experience specializing in Testing for product and project-based companies. Seeking to work in a challenging work environment where I can utilize my expertise in resolving the problems, analyzing the business needs and advocate my analytical skills towards the growth of the organization.

PROFESSIONAL SUMMARY

- Having more than 4 plus years of experience as ETL Tester, database tester and functional tester.
- Having SQL skills, experience written SQL queries and working with database objects like Group function, Analytical function, Joins, Set operators.
- Excellent knowledge and working exposure on Extraction Transform and Load (ETL).
- Extensively used SQL queries for data validation and backend testing.
- Validating the data files from source to target environment.
- Having experience to identifying Log files and Debug the logs and resolved the incidents on time.
- Good knowledge in Software Testing Life Cycle, Bug/Defect.
- Update project leads in a day to day activates on the Testing.
- Attending daily Scrum meeting for the Sprint work.
- Expertise in understanding SSIS packages comprising of transformation.
- Having knowledge in Unix navigating like Grep, Sed, Find, Awk commands.

PROJECT- I

Duration: Dec. 2021 to till date

Client Name : CaixaBank, Spain

Domain : Investment Banking

Database: Oracle, SQL Sever, Snowflake

Tools Used : Informatica, Power BI

Role : ETL Tester

ROLES AND RESPONSIBILITIES

- Working closely with business teams to understand the requirements, functionality and design.
- Understanding the BRD's and FSD's and preparing test plan and testing scenarios with test data to exhaustively cover the testing of client requirements spanning across score, interfaces and local customization.
- Testing a number of complex ETL mappings, and reusable transformations for daily data loads.
- Creating test cases for ETL mappings and design documents for production support involved in Built-in activities.
- Monitoring internal defects logged and ensuring closure of each item. Chasing respective developers/environment teams to get faster resolution on Critical and High priority defects.
- Escalation of the issues wherever faced to the appropriate authorities to bring it up to their notice and getting immediate resolutions.

PROJECT- II

Duration : Jul. 2019 to Nov. 2021

Client : DNB Bank ASA, UK

Domain : Retail Banking

Database : Oracle, SQL Server

Tools : JIRA, SSIS

Role : ETL Tester

ROLES AND RESPONSIBILITIES

- Analyzed the project and tested the source data, staging data and target data by understanding the requirement from the business requirement document.
- Written SQL queries to execute the test cases using sub-queries, joins, group and analytical function to validate the transformation.
- Tested the record counts to find the duplicate data and missing data between source oracle and target snowflake environments.
- Documented & prepared test reports, defect list, test results to maintain the track of records.
- Analyzed application data using the SQL to identify the ETL processes modifying and creating SQL Queries and stored procedures for quality assurance and analysis.
- Defects were identified in testing environment are communicated to the developers through JIRA with the complete set of evidence for the defect.
- Attended the Scrum Meeting and updated the Status for Day-to-Day activities to the scrum master with complete track of records through mail and teams.
