CORE COMPETENCIES

- Test Planning and Execution
- Automation Framework Development
- Bug Tracking and Reporting
- Agile/ Scrum Methodologies
- Black Box Testing Techniques
- Regression Testing
- Continuous Integration
- Defect Tracking & Management
- Test Scenario Design
- Test Data Management

TECHNICAL SKILLS

- Selenium WebDriver
- Cucumber (BDD)
- TestNG
- JUnit
- POM (Page Object Model)
- Data-Driven Testing
- JIRA
- Core Java
- GIT
- Maven
- Eclipse

PROFILE SUMMARY

- Possess nearly 3 years of experience in both Manual and Automation Testing, specializing in Selenium WebDriver
- Excellence in Test Planning, Test Case Design, Test Execution, Bug Tracking, and Reporting, ensuring comprehensive and efficient testing processes
- Possess in-depth knowledge of Agile & Scrum Methodology and extensive experience in utilizing automation frameworks like Cucumber BDD, TestNG, & POM
- Showcased proficiency in utilizing Build Automation tools such as Maven and Continuous Integration Tools like Jenkins to streamline development processes
- Proficient in utilizing the Cucumber Framework and Appium Mobile Automation Testing for comprehensive testing solutions
- Possess a wealth of experience in creating comprehensive Test Scenarios, Test Scripts, and Test Reports for automated tests, ensuring accurate and efficient testing processes
- Possess a deep understanding of effectively tracking and reporting defects using the Defect Tracking tool - JIRA, ensuring efficient bug management and resolution
- Proficiently developed BDD scripts using Feature Files by Cucumber, ensuring comprehensive and efficient test case creation
- Possess extensive experience in utilizing X-paths and CSS selectors to accurately identify web elements, ensuring precise and efficient test automation
- Displayed exceptional communication and collaboration skills, with a proven track record of effectively contributing to Agile Teams through active participation in ceremonies like Daily Scrum Call, Sprint Planning, Sprint Review, and Retrospective
- Developed and executed automated test scripts, resulting in a significant reduction in testing time and increased test coverage

EDUCATION

- | | |
|------|---|
| 2019 | B.Tech. in Computer Science & Engineering from Malla Reddy Institute of Engineering and Technology, Hyderabad, Telangana
Percentage- 60% |
| 2015 | 12th from Sandeepani Jr. College, Kamareddy, Telangana
Percentage- 67.1%
Telangana State Board |
| 2013 | 10th from Z.P.H.S., Arepally, Telangana
CGPA- 8.2
Telangana State Board |

ORGANIZATIONAL PROJECT

Dec 2020 - July 2023

Assurance by NanoHealth (Healthcare Domain)

Role: Automation Tester

- Contributed to the development of a Hospital Management System, integrating different roles such as Clinic Manager, Doctor, Dietician, and Pharmacist
- Developed User Apps for Android and iOS, allowing patients to book appointments and manage their reports
- Implemented automation testing using Selenium WebDriver, Maven, Cucumber, JIRA, Jenkins, and GitHub

SOFT SKILLS

- Change Agent
- Collaborator
- Communicator
- Innovator
- Planner
- Thinker

WORK EXPERIENCE

Dec’2020–Jul’2023 | Software Tester | Nano Health, Hyderabad

Key Result Areas:

- Collaborated with cross-functional teams to analyze and address software-related issues, utilizing Selenium WebDriver to create efficient and scalable automation scripts
- Spearheaded the development and implementation of comprehensive Automation Frameworks, incorporating industry best practices such as Page Objects, Maven, and Cucumber
- Accurately prepared comprehensive test scenarios, test cases, and test data, identifying the optimal test cases for automation
- Developed efficient and scalable automation scripts using Selenium Java and the Cucumber framework, leveraging element locators and advanced Selenium WebDriver methods
- Successfully executed automation scripts during live deployments of all modules, ensuring comprehensive and efficient testing of software applications
- Accurately prepared comprehensive Test Plans and Test Cases, aligning the same with business requirements to ensure accurate and efficient testing processes
- Thoroughly reviewed and updated comprehensive Test Scenarios, Test Cases, and Test Data, ensuring accurate and efficient test case execution
- Proficiently conducted comprehensive Functional Testing, utilizing advanced Black Box Testing Techniques to ensure thorough and accurate software testing
- Developed efficient and scalable test code in Java, utilizing the Eclipse and Cucumber framework for comprehensive test automation
- Successfully executed comprehensive Selenium tests for efficient automation testing of web applications, leveraging the power of Selenium WebDriver
- Expertly configured Maven for projects and seamlessly implemented the Page Object Model (POM) for efficient and maintainable test automation
- Diligently reported defects using JIRA and carefully tracked their resolution, ensuring efficient bug management and resolution
- Accurately prepared comprehensive weekly and monthly status reports, providing accurate and up-to-date project insights
- Proficiently performed comprehensive Integration, Functional, System, and Regression Testing, ensuring the stability and reliability of software applications

PERSONAL DETAILS

Address : Bangalore-560037, Karnataka

Date of Birth : 9th July 1997

Languages Known : English, Hindi, & Telugu
