Certified Software Tester with more than 2 years of experience in IT industry. Strong expertise in manual testing with basic knowledge about automation testing.

EXPERIENCE

MAR 23-TILL
DATE.

○ SOFTWARE TESTER, PLAYERZPOT MEDIA PVT LTD

Responsible for designing test scenarios for software usability, running these tests, and preparing reports on the effectiveness and defects using agile methodology to the development team.

MAR 2022-MAR
2023

○ SOFTWARE TESTER, TECHJAIN-IT-SOLUTIONS

To understand customer requirements and accordingly plan tests , test execution, defect management and reporting. Collaborate with developers, product managers, and other team members to make a start-up like Technjain successful.

Note: I have a career gap: I worked for Medidata solutions, Pune as Reconciliation Specialist and as software tester during August 2017 to June 2018.

EDUCATION

2015

○ DIPLOMA IN SOFTWARE TESTING, SEED INFOTECH, PUNE.

Received the certificate which guaranties my capabilities in Software testing. I learned fundamentals testing concepts , Test planning, documentation, Test defects, Test automation, QA and some soft skills.

2015.

○ BE(ELECTRICAL), NMU, JALGAON, 2015.

I scored 63.26% . I topped in university one of the subject, would really love to speak about it in the interview.
