As a Bachelor's degree student, my aspiration is to become a creative problem solver in the ever-evolving world of software development. My journey is characterized by dedication to continuous learning and a passion for transforming innovative ideas into tangible software solutions. Seeking opportunities to collaborate with teams and organizations that recognize the value of diverse skills, innovative thinking, and a shared commitment to pushing the boundaries of software development.

EXPERIENCE

[+ Add](#)

Samsung (SRIB) - Software Developer Intern July 2022- Sep 2022 | Bangalore ,India

- Working with the research team at Samsung, which is tackling the problem of sending up to 1 Tbps of data per user.
- Set up a TCP/UDP-based channel for communication.
- Python and C are used to implement server-side functionality, and PyQt5 is used to develop the graphical user interface (GUI).
- Contributed to daily stand-ups and sprint planning, ensuring project milestones were met.
- Engaged in code reviews and implemented feedback to improve code quality, readability, and adherence to coding standards.

Academic Projects

SORTING VISUALIZER

- Tech used : Javascript , Nodejs, React.js Dec 2022-Jan 2023
- Built an app , which is used to visualize different sorting algorithms , such as merge sort , quick sort etc.
- Designed a user-friendly interface with adjustable array size and sorting speed controls for a customizable experience.

SOCIAL NETWORKING PLATFORM

- Tech used : HTML, CSS, JavaScript. Jan 2023-Feb 2023
- Designed an intuitive user interface with a responsive layout. for seamless user experience across devices.
- Enabled users to create and manage groups, fostering a sense of community within the Application.
- Collaborated with a team, participated in code reviews, and ensured project success.

Dynamic Chat Application

- Developed a React-based chat application. Feb 2023 - Mar 2023
- Implemented real-time chat functionality for users.
- Added notification system to enhance user experience.
