Career Objective:

“Commit to an environment that would hone my skills, thereby directing my future endeavors as an asset to the organization”.

Seeking quality environment to take up greater responsibilities, which gives me scope to apply my knowledge and skills and be a part of a team that dynamically works towards success and growth of the organization.

Academic Profile:

QUALIFICATION	NAME OF THE INSTITUTE	UNIVERSITY/BOARD	YEAR OF PASSING	PERCENTAGE/C GPA
MS (Masters in Computer Technology)	Eastern Illinois University, Illinois, USA	—	2021-2023	4.0
B.E (Electronics and Communication Engineering)	R.M.K Engineering College	Anna University	2017-2021	8.75
INTERMEDIATE	Narayana Junior College	Board of Intermediate	2015-2017	96.4
S.S.C	Ratnam High School	Board of Secondary Education	2014-2015	9.2

Projects:

➤ **AGRIBOT:**

- Presented at Dr. Abdul Kalam Awards during October 2018 with a team of 4.
- It is basically a multi-purpose agricultural robot.
- The only thing that the farmer need to do is just monitor the vehicle according to the need of the crop.

➤ **Poly-farming multi-purpose robot:**

- Presented at Smart India Internal Hackathon 2019 during March 2019 with a team of 6.
- It is a vehicle designed for poly-farming and designed to minimize the labor of farmers in addition to increasing the speed and accuracy of the work.
- As temperature plays a major role in this indoor farming, an exhaust fan is present to exhaust the hot air from the poly- house.

➤ **A safe covid school bus tracking system:**

- Presented at R.M.K Hackathon during October 2020 with a team of 3.
- We included temperature detection sensor into our proposed system, which senses the temperature and intimates the driver if the temperature is abnormal by using simple buzzer and LCD display.
- A reliable system that track the location of school buses in real-time by uploading the geo-coordinates continuously via ziff Wi-Fi.
- Identifies each student as they enter the bus using Radio Frequency Identification (RFID) embedded in student id cards.
- Regarding the communication, the proposed system seems low-cost since free notifications are used instead of SMS data.
- It can be detected by using some of the concepts of Artificial Intelligence. Upto now it is an ongoing project.

Experience:

- Company: Wipro
- Duration: 2021-2022
- Role: Project Engineer

Technical Skills:

- Programming Languages: Python, Java script, Java, C.
- Web framework: Flask.
- Database: MYSQL, Mongodb.
- Scripting Languages: HTML, CSS
- Platforms: Windows.
- Other technologies: Appian, Agile, Word Press

Strengths:

- Burning desire to justify the given position.

- Zeal to learn new things and constantly upgrade my skills.
- Good at Communicating Skills.

Personal Profile:

DOB : 29/09/2000
Gender : Female
Languages Known : English, Telugu, Tamil, Hindi, Gernam (A1)
Hobbies : Painting, Handicrafts
Marital Status : Unmarried
Nationality : Indian

Declaration:

I do hereby declare that the information stated above is true up to my knowledge.
