WORK EXPERIENCE

Tata Consultancy Services (TCS)

Assistant System Engineer- Veeva Vault Developer

Noida, India

Aug 2021 - Present

- Currently working as a Veeva Vault Developer and Administrator in PromoMats.
- Developed complex industry-specific Veeva Vault PromoMats workflows to streamline & optimize customer-driven processes, contributing to a 100% successful customer satisfaction rate.
- Independently created a new lifecycle project and also maintained older ones.
- Worked on user role setups, permission sets and managed security settings over various states as per requirements.
- Closed Loop Marketing (CLM) and Approved Emails - Development and Design.
- Creating new document types, subtypes and managing their fields over field dependencies.
- Experience in migrating legacy workflows to new workflows as per Veeva standards.
- Certified Salesforce Administrator (SCA).
- Managed over 90 client requests, providing custom-fit Salesforce solutions resulting in 95% customer satisfaction rate.
- Bagged the Super-Badges on trailhead: Lightning Experience Reports & Dashboards Specialist
- Knowledge of Salesforce Administrative functions, experience with prior experience in Customer support / Enterprise Product and Support, understanding of the constraints of the SFDC platform.
- Use custom report types, reporting snapshots, complex charting, custom summary formulas, bucketing, joined reports, and cross filters to build reports that meet complex business requirements.
- Expertise in creating Users, Profiles, Permission Sets, Roles and Sharing Rules.

Hewlett Packard Inc. (HP India)

Intern - Robotic Process Automation

Remote, India

Feb 2021 - Aug 2021

- Mentored 4 international HP colleagues in RPA development, enabling successful participation of Bot-a-thon across 3 geographical regions.
- Monitored the functioning of RPA workflow automation with UiPath Studio & StudioX tools to rectify inaccuracies & faults quickly and efficiently, able to improve customer satisfaction by 15%.
- Success Examples: (i) People Management: Helped People understand automation who have been in the industry with more than 10+ years of experience but want to know this technology better. (ii) Worked on code change to improve security of the code running in production.
