TECHNICAL KEY SKILLS

- ✚ **Languages:** C, C++, Java
- ✚ **Database:** Microsoft Azure /Oracle, Microsoft SQL Server/Azure data bricks
- ✚ **Database Tools:** SQL Developer/Azure Storage Explorer
- ✚ **Defect management Tool:** Jira /HP ALM 12/Service now
- ✚ **Web service:** Soap UI/ Postman
- ✚ **Performance Testing Tool:** J-meter /Load Runner
- ✚ **API Tool:** REST Assured.
- ✚ **ETL Tool:** SSIS/ Informatica
- ✚ **BI Tool:** Tableau/Power BI
- ✚ **Automation Tool:** Selenium/Github /Jenkins
- ✚ **Web Technology:** HTML

PROFILE SUMMARY

Proactive and result driven QA analyst with diversified work experience in Functional Testing, Manual testing and selenium automation testing on large scale Data warehousing and Operational projects including ENOVIA 3DEXperience.

- ✚ 2.8 years of Manual and BI Testing experience in domains such as **PLM, Telecom Billing, CRM, and OSS**.
- ✚ Skilled IT professional in **Analytics, Data base management, Reporting**.
- ✚ Exposure to all stages of **SDLC** (Software Development Life Cycle) and **STLC** (Software Testing Life Cycle)
- ✚ Have a good experience in 3DEXPERIENCE ENOVIA application and TECHNIA.
- ✚ Having good experience in **Database testing, SQL, SSIS/Informatica** as an ETL tester.
- ✚ Having good experience in projects based on **Agile & Waterfall methodologies** from scratch until completion.
- ✚ Having good understanding of capturing requirements, test execution and defectmanagement.
- ✚ Knowledge in automation testing using **selenium**.
- ✚ Knowledge in maintaining CI CD pipeline using **Jenkins and GIT Hub**.
- ✚ **Strong grip on UNIX commands and knowledge in MQL.**
- ✚ **Strong Knowledge on SQL Queries.**
- ✚ Expertise in analyzing the test requirements, tracking change requests and maintenance of regression test suite and automation scripts
- ✚ Defect reporting and tracking using test management tools such as **JIRA, HP ALM, SERVICE NOW**
- ✚ Knowledge in **PAM CLIENT & ECLIPSE**.
- ✚ Experience in black box testing which includes functional testing, performance testing, Regression testing, System testing, IST testing, Ad-hoc testing and preparing DSR and Defect Report
- ✚ Having good experience in performing **UAT** successfully to make a defect-free production release.
- ✚ Microsoft Office Tools
- ✚ Experience in making reports using **Power BI**.
- ✚ Service now customer service management module.
- ✚ Strong verbal and writing communication skills
- ✚ Ability to learn new technologies in short span.
