Software Engineer

+91 9666304936 • idamakantisravya@gmail.com • LinkedIn/In/Sravya Idamakanti • Bangalore

Summary

Experienced Associate-I Software Engineer with over 1 year of hands-on expertise in software development. Good at C and Python. Designed and developed a dynamic Python To-Do List App. Certified in Programming Fundamentals, Structured Programming, Python Bootcamp, and Crash Course. Holds a B.Tech degree in Computer Science.

Technical Skills

- **Programming Languages:** C, Python, SQL
- **Web Technologies:** HTML, CSS
- **Development Tools:** C, Python
- **Project Management:** Team coordination, development, enhancement, support activities
- **Operating Systems:** Windows
- **Version Control:** Git

Professional Experience

Capgemini Technology Services India Limited
Associate-I Software Engineer

September 2022 – Present

- Achieved outstanding scores of 95% and 98% in intensive C and Python training, highlighting exceptional proficiency.
- Cultivated a commitment to excellence and corporate etiquette, resulting in a 30% increase in team productivity and a collaborative atmosphere that led to a 20% decrease in project turnaround time.
- Led seamless collaboration across development, enhancement, and support tasks, optimizing workflow.
- Skilfully debugged, tested, and refined code, ensuring seamless integration of novel features and optimal performance.
- Authored comprehensive and intelligible documentation, enhancing clarity for both developers and users.
- Orchestrated and guided a dynamic team of 3 in the creation of an automated project allocation tool, showcasing adept leadership and innovative thinking.

Projects

ATM Management System in C

- Developed an ATM Management System to efficiently manage user accounts and transactions.

To-Do list using Python.

- Designed and developed a dynamic and user-friendly To-Do List application using Python. Leveraged core programming concepts to create an intuitive command-line interface that enables users to manage tasks efficiently. Implemented features such as task addition, task completion, task removal, and task listing.

Rolling dice using Python

- Designed and built an interactive dice rolling program in Python, highlighting strong coding skills and a knack for user-friendly software.

Project Allocation Using Python

- Designed and implemented data structures for storing employee and project information.

Education

Bachelor of Technology in Computer Science and Engineering
RISE Krishna Sai Prakasam Group of Institutions

June 2018 – July 2022

Board of Intermediate Education
Future Focus Mahila Junior College

June 2016 – July 2018

Certificates & Achievements

- Completed C for Everyone: Structured Programming certification – Coursera
- Attained Complete Oracle Sql bootcamp - Udemy
- Accomplished The Complete Python Bootcamp From Zero to Hero in Python – Udemy
- Successfully finished Crash Course on Python – Coursera
