COURSEWORK

UNDERGRADUATE

Data Structures

Object Oriented Programming

Operating Systems

Database Management Systems

Internet of Things

Software Engineering

Web Technologies

SKILLS

PROGRAMMING LANGUAGES

- Basic Java
- Core Java
- C Programming Language
- HTML & CSS (Basics)

FRAMEWORKS

- Spring Boot and Microservices
- Hibernate

DATABASE

- MySQL
- PL/SQL

TOOLS

- Tortise SVN
- Jenkins
- Crucible
- PostMan
- Soap UI
- Linux
- JIRA

EXPERIENCE

NETCRACKER TECHNOLOGY | SOFTWARE ENGINEER

September 2022 – September 2023 | Bengaluru, Karnataka

- As a valued member of the Customer Billing Management team in O2UK project, I leveraged my experience in **Java, Spring Boot, PL/SQL and core NC framework** to build new features and effectively resolve defects, contributing to the team's success in delivering high-quality telecom software solutions.
- **Developed microservices from scratch** by gathering the requirements from business analysts, also ensuring the **100 percent** coverage of all the cases.
- Worked with other teams for **APIs integration** in a highly demanding and challenging environment.
- Successfully **resolved many blocker/critical/major defects by debugging and identifying the root cause**, resulting in better performance and delivered it to client **before deadline**.
- Worked closely with team lead and manager and **proposed several different ideas** to the team on how we can implement the new features and also to resolve defects.

NETCRACKER TECHNOLOGY | JUNIOR SOFTWARE ENGINEER

August 2021 – September 2022 | Bengaluru, Karnataka

- Attended different training's related to project and applied them to build **web based applications**.
- Developed Rest API's by covering all **CRUD operations**, understood the **flow of project** and also learnt different **development tools**.
- Worked on the performance issues, identified additional calls to other methods and **removed them if they are redundant, resulting in a 20 percent performance increase**.

ACADEMIC PROJECTS

DOCTORED IMAGE DETECTION | LINK

Detects if any changes are made in the given image as input and returns the amount of alteration made on the image in percentage.

FRESH BASKET | LINK

It is a web based application, to bring the farmers and customers in a common platform.

ACHIEVEMENTS

- Solved 100+ problems from Hackerrank.
- Published the manuscript in the proceedings of 5th ICRDEPM-2021.
- Secured a rank of 1084 in DCET which is organised by Department of Technical Education.
- Completed the Machine Learning Course from Courseera.

INTERESTS

- Volunteering Social Service
- Indian Politics
- Cricket
- Travelling
