Project Management

Cybersecurity Analyst with 3 and more years of experience in designing, implementing, and managing robust security measures to safeguard organizations against cyber threats.

Work History

2022-04 - Current	Security Analyst <i>SensAi Technologies, Paris, France</i> • Collecting logs of all network devices and analyze logs to find suspicious activities • Investigate security logs, mitigation strategies and Responsible for preparing Generic Security incident report • Responsible to preparing Root cause analysis reports based on analysis. • Investigate false positive alerts and recommend corrections. • Monitoring events on SIEM tool • Creating tickets in ticketing tool
2021-08 - 2022-02	Security Analyst <i>Cybervie-Ionots Technologies, Hyderabad, India</i> • Evaluated security logs and alerts to identify patterns and potential threats • Maintained accurate records of security incidents, investigations, and remediation activities • Developed risk mitigation strategies and implemented controls to reduce identified risks • Analysed security alerts, conducted investigations, and executed mitigation strategies • Proficient in threat monitoring, incident response, and security tool management • Provided safety reports and data analysis to building managers to inform security processes
2017-01 - 2018-08	Cyber Security Specialist <i>Ritchie Media Pvt Ltd</i> • Installed and configured OPNsense firewall, enhancing network security • Implemented Suricata IDS/IPS on OPNsense for real-time threat detection • Deployed Wazuh SIEM and XDR agent for advanced security monitoring

Technical Skills

Cortex XSOAR
Firewall
ISO27001
Linux
MITRE ATT&CK
Nessus
NMAP
Notion
OWASP
Python
Scripting
SIEM Tool (Splunk)
VPN
WireShark

Certifications

NSE-1 Network Security
Associate, Fortinet, 2022

Introduction to Cortex
XSOAR, Palo Alto, 2022

Certified Ethical Hacker
(CEH), EC-Council, 2019

Cisco CCNA, 2024

Languages

English

French

Hindi

Telugu

- Designed and managed OPNsense HA with CARP and pfSync for uninterrupted network operation
- Established multi-WAN failover and load balancing on OPNsense for network reliability, while also installing advanced Zenarmor firewall features and facilitating threat intelligence sharing with deployment of MISP

Education

2018-09 - 2022-03	Master of Science: Security Science <i>ESAIP École D'Ingénieurs - Angers, France</i>
2012-08 - 2016-12	Bachelor of Science: Computer Engineering <i>KL University - Vijayawada, India</i>

Projects

- Penetration Testing of Ubuntu Machine**
- Identified security weaknesses and potential attack vectors by conducting vulnerability assessments and penetration tests on Ubuntu machines
- Intruder Detecting System using IOT**
- Detected and reported intrusions in real-time by designing hardware system consisting of sensors, microcontrollers, and wireless communication modules
