

SKILLS

- Core Java
- Spring MVC and Spring Boot Framework
- Spring Security and OAuth2
- Spring Data JPA
- Spring Batch
- IBM ODM
- AWS SNS (Simple Notification Service) and SES (Simple Email Service)
- Single Sign-On (SSO)
- Hibernate
- Rest APIs and Microservices
- Maven
- Swagger API
- JUnit
- Git
- Debugging
- Spring Tool Suite 4
- Angular JS

AREA OF INTEREST

- Spring Boot Development
- Microservices Architecture
- Cloud-Native Development
- Containerization and Orchestration
- Full Stack Development

ROLES AND RESPONSIBILITIES

- Technical Leadership
- Project Management
- Developing Robust Web Applications
- Implementing Security Solutions
- Microservices Architecture

EDUCATION

Sri Ramakrishna Institute of Technology
B.TECH – IT
CGPA : 7.6
2018 – 2022

Brilliant Matric Hr.Sec. School
HSC : 76%
2017 – 2018

Brilliant Matric Hr.Sec. School
SSLC : 96.2%
2015 – 2016

Objective

Dynamic Java and Spring Boot developer with a proven track record of delivering scalable web applications. Expertise in core Java, Spring MVC, and Spring Boot, coupled with a passion for innovation and continuous learning. Adept at problem-solving and fostering collaboration, dedicated to delivering high-quality code to drive success in evolving software development environments.

Experience

- 

KGISL (GSS)
Junior Associate
Experienced technical leader with a strong background in Java development and expertise in IBM ODM. Demonstrated success in guiding and supporting teams, with a proven track record of performance and progression from developer to tech lead. Passionate about continuous learning and research to drive innovation and excellence in software projects.

Nov 2022– Present
- 

Mahathi Infotech
Software Engineer
Proficient Java Spring MVC developer with a knack for effective debugging. Experienced in troubleshooting and resolving issues within Spring MVC applications, ensuring smooth functionality and optimal performance.

Sep 2022– Oct 2022
- 

Breezeware
Junior Software Engineer
Learned and worked in Core Java, Spring Framework, Spring Security, OAuth2, Microservices, Swagger API, Maven, PostgreSQL, Hibernate and Junit, Spring data, Amazon SES (Simple Email Service), Amazon SNS (Simple Notification Service).

Jul 2021– Sep 2022

Projects

- 

TIGB (Takaful Ikhlas General Berhad)
Led the TIGB project as Technical Lead for IBM ODM and Java since August, overseeing the development of diverse insurance products including Health, Fire, Marine, and more. Managed full-cycle development from inception to deployment, implementing rules and rating engines with precision using IBM ODM. Provided valuable technical guidance and support to ensure project success.
- 

GI-EVEREGREEN (Evergreen General Insurance)
General Insurance Evergreen project is a three-decade-old Oracle application developed using Oracle forms. In this project, I'm working as a backend technical lead. Here, migrating the Oracle forms application to the Spring boot application.
- 

BSIB (Berjaya Sampo Insurance Berhad)
In BSIB project, R&D the Spring batch framework and learned the Angular JS. Developed the Spring Boot microservice for schedulers. I have been worked in SFTP server.
- 

Revolution Picture Cars (RPC)
Contributed to the development and integration of project modules such as Feedback Management Service, Single Sign-On (SSO), and Mobile Push Notification (AWS SNS). Utilized expertise in Core Java, Spring Framework, Spring Security, OAuth2, Microservices, Rest APIs, Swagger API, Maven, PostgreSQL, Hibernate, JUnit, Spring Data, Amazon SES, and Amazon SNS. Specialized in SSO integration with Apple, Google, and Facebook for streamlined user authentication.
- 

Breezethru
Developed a comprehensive web application encompassing Leave Management and Daily Check-In systems. Applied expertise in Core Java, Spring Framework, Spring Security, OAuth2, Microservices, Rest APIs, Swagger API, Maven, PostgreSQL, Hibernate, JUnit, Spring Data, and Amazon SES.
