WORK EXPERIENCE

C-Square Info Solutions

Bangalore, India

Application Software Developer

April 2022 – December 2022

- Contributed to the development of online healthcare and pharmaceutical application products, enabling users from South Asia to conveniently order/refill medicines, consult with doctors, and book pathology/radiology tests, as well as access whole body health checkups/packages.
- Throughout the product development lifecycle, we closely monitored key metrics, such as user engagement, conversion rates, and customer satisfaction, to ensure that our products delivered a positive user experience.
- **Tech Stack used:**
 - Kotlin SDK
 - Ktorm for Java API and database
 - Javalin for RESTFUL API
 - Heroku cloud

SpurTree Technologies

Bangalore, India

Software Developer

August 2021 – January 2022

- Contributed as a Full Stack/MERN Stack developer in the development of the company's internal employee management project using ReactJS and RESTful API development and documentation.
- Collaborated with the team using Bitbucket, JIRA, Slack, and Zoho to manage a central space, git repositories, and facilitate collaboration on source code through the development flow.
- **Tech Stack used:**
 - MERN Stack
 - React Native
 - RESTful API
 - Git
 - Bootstrap UI
 - Bitbucket & Jira

- I was assigned to co-handle both external and internal affiliate programs, I developed and maintained relationships with key corporate contacts, association members, and volunteers.
- By fostering these relationships, I proactively engaged venture capital firms and product management teams, expanding our network, and creating valuable collaboration opportunities. This approach facilitated growth by integrating their services, signing MoUs, and driving mutual success.
- **My work also included:**
 - Medium between developers and clients
 - Get deliverables done
 - Competitive pricing strategies
 - Monitor market trends
 - Analyse customer feedback

PHN Technology**Pune, India***Full Stack Android Developer Intern**April 2017 – June 2017*

- Contributed to the development of Android applications, integrating back-end APIs to enhance the customer experience and reduce development time.
- **Tech Stack Used:**
 - Android Studio
 - PHP myadmin
 - API
