A motivated software engineer experienced in Testing and seeking a challenging position in a reputed organization which offers opportunity to demonstrate my skills and leverage my learnings for improved growth and profitability of the organization

Professional Experience

ANB Systems private limited, Chennai

11/21 - Present

Automation Software tester

- Experienced tester in full product life cycle from requirement reviews to live deployments (AGILE/SCRUM Methodologies).
- Preparing the test plan, test case writing, and system test execution.
- Creating API and GUI automation scripts using Python (pytest) and JavaScript (Cypress).
- Train and mentor new software testers on testing, providing product KT, review for testcases and automation scripts.
- Tracking of the product releases, bugs and deployments using JIRA.
- Tracking of automation test scripts in git using CI/CD pipelines and responsible for sending consolidated weekly report
- Created basic proficiency test script for the product and deployed validation script for the assessment which triggers automated results and certifications to the participants.
- Completed all the existing backlogs and successfully implemented projects where automation was not implemented with the help of python API testing.
- Independently tested all the features or tickets in a sprint, delivered user friendly environment in production and in live project.
- Handling regression packs running every day in GIT, providing root cause analysis & solutions for errors encountered.

Education

PSNA College of Engineering and Technology

03/16 - 03/20

B.E Computer Science and Engineering - CGPA - 7.30

SMBM Matric Higher secondary school

03/15 - 03/16

HSC - 61.75%

SMBM Matric Higher secondary school

03/13 - 03/14

SSLC - 91%

Key Skills

- API Testing: Pytest using PyCharm
- Coding Languages: Python, JavaScript, Java, C
- Development Environments: Visual Studio, PyCharm
- Database: MongoDB
- Technical Applications: GIT, JIRA
- Microsoft office (Word, Excel & PowerPoint)
- Manual Testing: Having good knowledge in SDLC, STLC, White box testing, Defect/Bug lifecycle, Defect Report, Test case, Test plans & Test scenarios, Black box testing (Agile Methodology)
- Black box testing: Functionality testing, Integration testing, System testing, Acceptance testing, Smoke testing, Regression testing

Projects

Privacy and Security of images in Social media.

- Done a final year project based on Privacy and Security of images in Social media.

Workshops

- Attended 3 days workshop about Cloud Computing conducted by Cloud Bull.
- Attended one day workshop on Internet of Things (IoT) using Raspberry Pi organized by Institution of Electronics and Telecommunication Engineers (IETE).

Hobbies

- Watching movies
- Meme Creation
- Photography

Interests

- API Automation testing
- Manual Testing
- Social media Management
