

SARATHKUMAR K

SOFTWARE TEST ENGINEER

9944979113

Sarathkumarsk0802@gmail.com

PERSONAL PROFILE

Software testing is the act of examining the artifacts and the behavior of the software under test by validation and verification. Software testing can also provide an objective, independent view of the software to allow the business to appreciate and understand the risks of software implementation.

PROFESSIONAL SUMMARY

- Extensive experience of 4.2 years in Manual Testing and Automation Testing.
- Good knowledge of Java programming and oops structures.
- Good knowledge of Oracle DB Management.
- Expertise in creating test scripts in Selenium WebDriver by using Java to automate the web-based application.
- Also involved in Mobile application testing on Android, Kindle, and IOS devices.
- Having good experience in automation frameworks such as Cucumber BDD, TestNG, Junit, POM and Data Driven framework.
- Expertise in developing BDD scripts with Cucumber.
- Experience in Build Automation tools like Maven and Continuous Integration Tools like Jenkins.
- Maintaining the checkout and check in the source code from GIT and GitHub.
- Hands on experience in tracking and reporting of defects using Defect Tracking tool – JIRA.
- Thorough knowledge in test case designing using various test case designing techniques and writing test cases. Also,
- possesses good understanding of unit testing using Junit and TestNG Frameworks.
- Performed testing like Smoke, Sanity, Regression.
- Proficient in automating different platforms over cloud devices like Browser Stack.
- Having Experience in API Manual Testing.(SOAP,REST)
- Good Experience in API with REST assured framework.
- Analyzing the API requirements from API documents and user stories. Performing different HTTP request methods like
- GET, POST, PUT, DELETE. Validating the different Status codes (like 200, 201, 204, 400 etc.) based on the API document.
- Involved in ceremonies like Daily Scrum call, Sprint planning, Sprint review and Retrospective.
- Having Good Experience in Mobile Automation(Appium)
- Guiding new team members to get acquainted with project knowledge and processes.
- Effective communication with Team and Client to convey message.
- Involved in delivery reports like Daily Status Reports, Weekly Status Reports and execution dashboards.
- Participated in all the meetings of Agile-Scrum Methodology.

WORK EXPERIENCE

- Firstzen Solutions Private Limited
- December 2019 to Present

EDUCATION QUALIFICATION

- Bachelor of Engineering
- M.Kumarasamy College of Engineering, karur
- 2014-2018

SKILLS

TESTING PROCESS: MANUAL, AUTOMATION, API & MOBILE TESTING

PROGRAMMING LANGUAGE: CORE JAVA

AUTOMATION TESTING TOOL: SELENIUM WEB DRIVER

FRAMEWORK: CUCUMBER BDD, TESTNG, JUNIT, POM, DATA-DRIVEN

API TESTING TOOL: POSTMAN, REST ASSURED

TESTING METHODOLOGY: AGILE

IDE: ECLIPSE

BUILD TOOL: MAVEN

INTEGRATION TOOL: JENKINS

RDBMS:SQL BASIS/ORACLE

PROJECT 3- E-COMMERCE

ROLE: QA AUTOMATION

CLIENT : CHANEL

DURATION :SEP 2022 TO PRESENT

DESCRIPTION

Chanel is a French high-end luxury fashion house founded in 1910 by Coco Chanel in Paris. Chanel specializes in women's ready-to-wear, luxury goods, and accessories and licenses its name and branding to Luxottica for eyewear. Chanel is well known for its No. 5 perfume and "Chanel Suit". Chanel is credited for revolutionizing haute couture and ready-to-wear by replacing structured, corseted silhouettes with more functional garments that women still found flattering

ROLES & RESPONSIBILITIES

- Worked on Automation Framework implementation using Page objects, Data Driven, Maven, Selenium Web Driver – Java and Cucumber.
- Prepare the automation script in selenium web driver using cucumber
- Developed BDD tests using Cucumber by writing behaviors and step definitions
- Developed required Selenium support code in JAVA for Cucumber
- Expertise in developing automation scripts in BDD format using cucumber and
- proficient in writing cucumber scenarios in GHERKIN format
- Created & Maintained Automation Selenium Automation Scripts for the Scrum Stories
- Developing new scripts, debugging and reviewing the automation test scripts.
- Preparing the XPATH and handling Dynamic Elements.
- Worked on Regression testing and Automation test execution in Electric Flow.
- Preparing XML files, Service Sheets and Data Sheets for Service Automation.
- Performing failure analysis and fixes for both UI Testing and Service Testing.
- Raise defects in JIRA during SIT and UAT cycles.
- Working in Agile environment and participates in Daily Scrum meetings.
- Prepare reusable components to improve productivity and maintainability.
- Executing checkout and check in the source code on Bit Bucket and integration through Electric Flow.
- Should able to use all the web methods like GET, POST, DELETE, etc.
- Validate the response, response time, error code.
- Able to validate the XML and JSON body by using Json parsers.
- Must know to use OAuth and OAuth2 authentication mechanisms.

PROJECT 2- HEALTHCARE

ROLE: QA MANUAL /AUTOMATION TESTER

CLIENT : INTERGLOBAL

DURATION : FEB 2021 TO AUG 2022

DESCRIPTION

- InterGlobal Insurance Company Limited has changed its name to Aetna Insurance Company Limited. The company will continue to trade under the "InterGlobal until further notice. InterGlobal Limited has changed its name to Aetna Global Benefits (UK) Limited. The words "Aetna" and "other Aetna entities" when used in this document mean Aetna Insurance Company Limited and include any other Aetnainternational the group company as the context requires

ROLES & RESPONSIBILITIES

- Implemented Selenium Web Driver for automation and executed scripts using Cross Browser Testing in TestNG.
- Implemented Page Object Model in automation frameworks using Selenium.
- Created and maintained Selenium Automation Scripts.
- Automated highly transactional web application using Selenium Web Driver and TestNG.
- Implemented custom listeners of TestNG for re-running failed test cases and capturing screenshots of failed test cases.
- Generated packages through Maven.
- Used Java language and JUnit framework for Automation scripting.
- Involved in Regression and Functional testing by using Selenium Web Driver with Java.
- Worked in AGILE environment and participated in scrum and sprint meetings.
- Communicates the Functional Analyst on any issue clarifications
- Developed test scripts using Eclipse IDE and TestNG framework.
- Executed test scripts and analyzing the reports and fixing the issues.
- Generating reports and analyze them using TestNG.

PROJECT 1- TRANSPORTATION AND LOGISTICS

ROLE : QA MANUAL TESTER

CLIENT : BOLLORE

DURATION : NOV 2019 TO JAN 2021

DESCRIPTION

Bollere is a conglomerate that operates in various industries, including transportation and logistics, media and communications, electricity storage solutions, and plantations. Bollere is one of the world's leading players in transportation and logistics. The company operates ports, provides shipping and freight forwarding services, and offers supply chain solutions to clients globally.

ROLES & RESPONSIBILITIES

- Responsible for managing the team and reporting the progress to the higher management team.
- Reported Test Progress on daily basis with prioritized issues and risks to avoid major blockage and Back Logs.
- Writing test cases using excel and uploading in maestro (defect internal tool) along with evidence.
- Profile details, Medical and coverage plans, will be tested.
- Hands on experience in the types of testing like System Testing, Regression Testing, Functional Testing, Integration Testing and End to End Testing, Sweep testing.
- Analyzing the technical characteristics of equipment systems
- Evaluating written code to ensure it meets project specifications
- Developing quality assurance strategies and organizing phased testing with QA engineers
- Monitoring errors in the system and discussing them with other colleagues
- Helping with bug detection and fixing
- Conducting product testing after its presentation
- Testing and analyzing the results
- Collaborating on quality assurance within a team
- Creation of Test Data for Member data's according to the scenarios
- Supported End to End testing for downstream systems
- Involved in Task Creation, Task Estimation, Task Distribution, Task Testing all the data
