Hello,

I'm Savin Raj

UI | UX Designer & Product Designer

PROFILE SUMMARY

I am an experienced UI/UX designer with specializing in creating outstanding user experiences. With a proven track record of leading design teams and collaborating with renowned brands, I bring expertise in delivering visually appealing and user-centric designs that drive business success. Proficient in Adobe Suite, Sketch, Figma, I possess the technical skills necessary to bring design concepts to life. I am passionate about staying up to date with the latest design trends and utilizing research-driven approaches to craft intuitive interfaces. Throughout my career, I have successfully overseen multiple design projects, consistently exceeding client expectations. My ability to combine creative thinking with analytical problem-solving enables me to tackle complex design challenges and optimize user experiences. I am a collaborative team player who values open communication and enjoys working in cross-functional environments. Committed to continuous improvement, I actively seek opportunities for professional growth and learning. With my blend of technical skills, industry knowledge, and passion for UX design, I am confident in my ability to make a significant impact and contribute to the success of any design team or organization.

EXPERIENCE

Greenwind Solutions

- May 2020
- Worked as Design Head and handled multiple teams.
- Has been awarded as the best designer for the month 2020-21.
- Our team created a User experienced design app for offer-Nate company. An app that helps customers find the best deals on food, beverages, clothing, and more can. It can help customers save money by finding the best deals available in their area. The app can also help customers discover new local products and services that they may not have known to all. In addition to that, it can also help the businesses increase their sales by attracting new customers and retaining existing ones.
- The success of such an app depends on several factors such as the quality of the deals offered, the ease of use of the app, and the marketing efforts put into promoting it. However, if these factors are taken care properly, such an app can be very successful in the market.
- Hand on experience in blender.

Quadnotation

- Nov 2019 To May 2020 UI UX Designer.
- Started working on Figma Tool.
- Created a grocery delivery app for Fatapat company that helped local farmers enter the market and reach customers directly without the interference of middlemen.
- Increased local farmers' revenue by 17% between 22% by cutting out unwanted commissions and selling at market prices.

- Increased customer satisfaction by 70% to 85% by providing fresh and quality groceries at a standard price directly from the local market or farmers.
- Worked as product designer

Ginger Technologies

- Sep 2015 To Oct 2019 UI UX Designer, Graphic Designer.
- 1 Year overseas on-site experience in Qatar Promoted as Design Head.
- Have Designed 150+, and worked with multiple international brands like Lulu Al Khor Mall, Naseem Al rabeeh, Al Emadi hospital.
- I created a native application UI UX Design for Naseem al rabeeh Hospital. The application was specifically designed to book doctors' appointments and to show patients data. During my time there, I was responsible for the entire UX process from start to finish. This included designing the user interface and testing the application. The application was a huge success and received *positive feedback from 90% of users. It was used over 2 Lakh users and helped reduce the average wait time for doctor appointments by 50%.
- I created a food delivery app for Qatar menus. The app helped local chefs deliver food directly to customers. I was responsible for designing the user Experience, User interface, and testing the app. It was downloaded over 1.5 Lakh times and received positive feedback from 95% of users. The app helped increase Qatar menus company's revenue by 30%.

Code buddies

- Feb 2014 To Sep 2015 UI UX Designer and UI Developer.
- Learned design and development ideas.
- Designed Social medial posters for branding combines
