PROFESSIONAL SUMMARY

- **Over 4+ years** of experience in **Software Automation Testing for Web based and Client/Server applications.**
- Experience in **API Testing** using **Postman Tool**
- Experience in **Automation** tools such as **Selenium web Driver, Java, TestNG(Regression tests), Eclipse.**
- I have also experience in **developing the framework** in my current project I **do some development in the framework.**
- Experience in **Database Testing** using **SQL**
- Experience and thorough understating of **Software development process including Agile, Software development life cycles.**
- Developed and maintained **Test Plans, Test Cases, Test Procedures & Test Script for Manual testing and Automation testing.**
- Experience in **Ecommerce, Health care and Banking Domains.**
- I have also **experience in mobile testing by manually.**
- Worked closely with development teams from design to implementation through deployment for Multiple Projects.
- Excellent Communication and decision-making skills.
- Expertise in defect tracking and reporting defects to reduce cost and delay.
- Accurately monitoring and recording results in test documentation.

TECHNICAL SKILLS

- **Testing Tools:** Selenium IDE, Web Driver, Selenium GRID,
- **Defect Tracking:** JIRA
- **Languages:** Java
- **Framework:** Data Driven and Test NG.
- **Version Control:** GIT
- **Continuous Integration:** Jenkins
- **Databases & Tools:** SQL Server 2008, Oracle 9i.
- **Operating Systems:** Windows / 7 /8/10/11, Mac.

ORGANIZATION/S SERVED

Software Test Engineer, Crocus Robotics Pvt Ltd

September/2019 to Present

Location: Noida-63, H160, BSI

- Test Script Designing and Execution.
- Designing the application flow and UI
- Test script Planning, Test Strategies development
- Inspecting elements using locators (ID/Name/X Path/CSS etc.)
- Script development using Java

EDUCATION

- Graduation from Baba Saheb Bhimrao Ambedkar University
- **Intermediate** from **CBSE Board**
- **High School** from **CBSE Board**.

PROJECT DESCRIPTION

Project: Shopper Vapid

Role: Testing Engineer

Description: It is a web based application. This application is developed for business to business marketing. It is a shopping site for groceries for remote areas. It is ecommerce site for shopping of groceries for grocery shops. It allows recharge facility as well.

Responsibilities:
