Project Worked (From the latest):

Project Name	CPB
Client	Citi Bank
Role	Senior System Associate
Team size	16
Duration	Nov, 2021 – Till date
Test Efforts	Manual
Environment	ETL Testing, Data Warehouse, Oracle SQL Developer.
Details	Citibank provides Private banking services for wealthier clients, including entrepreneurs and senior corporate executives. Its private banking services are divided between high-net-worth clients and Law Firm groups, which focus on servicing the needs of high-net-worth individuals and law firms and their lawyers. In this we work on three main applications where we get new Change requests for the existing applications. And also provides a comprehensive snapshot of a client's wealth in one place, giving bankers and clients a world of data at their fingertips.
